the Institute were two-fold; first, to promote research in and an understanding of the Far East as it is today; second, to offer language instruction of a type that would most readily equip the student with a reading knowledge sufficient for the promotion of research.

A notable characteristic of the 1937 institute was the widespread origin of the people who attended. From the point of view of its student membership, the session was truly national in character. There were a considerable number of students from the West Coast states, a large number from the Atlantic seaboard, and a representative from each of most of the interior states. Alaska and Hawaii were represented, as were Canada, the Netherlands, and other foreign countries. Seventy-two students took all of their work in courses offered by the Institute, sixteen took most of their work in its courses, and there were at least six visitors who attended all of its functions. The approximate total, therefore, is ninety-four, of which all but a half-dozen were either graduate students or guest Ph.D.'s.

The Institute of Far Eastern Studies was a part of the general Summer Session of the University of Michigan. The organization and direction of it was carried out by Professor Robert Burnett Hall, of the department of geography, as director, and Professors J. R. Hayden, of the department of political science, and Charles F. Remer, of the department of economics, as associate directors.

The unusual success of the Institute led to numerous requests that the experiment be tried again during the summer of 1938, and this will be done. A stronger emphasis than ever will be put upon problems of the present-day Far East. The concentrated language courses will again be offered, and it is hoped that the standard introductory courses in Far Eastern languages can be given as well. In addition, a few nationally prominent authorities on different phases of the Far East will be invited to supplement the local faculty. Detailed information concerning the Institute of next summer may be secured from the director, Dr. Robert B. Hall.—J. R. Hayden.

Thirty-third Annual Meeting of the American Political Science Association. The thirty-third annual meeting of the American Political Science Association was held in Philadelphia, December 27–29, 1937. The registered attendance was the largest in the Association's history, a total of 531, as compared with 403 in Chicago in 1936, 315 at Atlanta in 1935, 310 at Chicago in 1934, and 360 in Philadelphia in 1933. The American Historical Association also met in Philadelphia on December 29–31.

Following the practice of recent years, the program of the American Political Science Association was devoted largely to round-table and section meetings. Because of the sesquicentennial anniversary of the constitutional convention of 1787 in Philadelphia, emphasis was laid upon constitutional questions. The full program, as corrected to indicate only persons who actually participated, was as follows:

ANNUAL BUSINESS MEETING

Presiding Officer: Thomas Reed Powell, Harvard University.

At the annual business meeting, the Secretary-Treasurer reported a total membership of 1,950, classified as follows: life members, 45; sustaining members, 14, and annual and associate members, 1,891. During the year, 240 new members were added, while there were 150 cancellations, a net gain of 90 members as compared with 68 in the preceding year. The financial report of the Secretary-Treasurer for the year showed total receipts of \$10,348.69 and expenditures of \$9,113.30. A budget for 1938 was adopted estimating receipts at \$9,750 and expenditures at \$9,715.

The following officers for 1938 were elected: president, Clarence A. Dykstra, University of Wisconsin; first vice-president, Edwin A. Cottrell, Stanford University; second vice-president, Henry R. Spencer, Ohio State University; third vice-president, Robert T. Crane, Social Science Research Council; secretary-treasurer, Kenneth Colegrove, Northwestern University; and members of the Executive Council for 1938–40 as follows: Oliver P. Field, University of Minnesota; Carl J. Friedrich, Harvard University; Lane W. Lancaster, University of Nebraska; Howard White, Miami University; and Francis G. Wilson, University of Washington.

The following memorial was adopted by rising vote: "The American Political Science Association desires to record an expression of its sincere regret because of the death of Professor Clyde L. King, who served this Association as secretary-treasurer from 1929 to 1937 with unselfish devotion and loyalty. His death is a loss not only to the Association but also to the profession of which he was a distinguished member."

The report of Professor Frederic A. Ogg, managing editor of the Review, presented an analysis of Volume XXXI, indicating that the distribution of space was as follows: leading articles, 271 pages; departments, 911; list of doctoral dissertations in preparation, 14; and index, 20. Among the departments, the space was divided as follows: American Government and politics, 164; constitutional law, 48; public administration, 50; municipal affairs, 22; rural and local government, 30; foreign governments and politics, 56; international affairs, 21; instruction and research, 9; news and notes, 43; book reviews and notices, 298; and recent publica-

tions of political interest, 170. On the editor's recommendation, in place of five members of the Board of Editors whose terms have expired, the following members were elected for the customary two years: Arthur W. Bromage, University of Michigan; J. A. C. Grant, University of California at Los Angeles; William C. Johnstone, George Washington University; Peter H. Odegard, Ohio State University; and Schuyler C. Wallace, Columbia University. The editor invited suggestions, criticisms and cooperation from the members of the Association in the editing of the Review.

Professor Arthur N. Holcombe, chairman of the Committee on Policy, reported on the activities of this committee during the year 1937. By action of the Executive Council, the Committee on Policy was discontinued and the cash balance of the Committee amounting to \$4,628.21 was set up as a special fund, the interest of which is to be expended by the Association within the purposes of the original gift. The Executive Council also voted that the interest of this fund for the year 1938 should be used for the support of the Personnel Service.

The Secretary-Treasurer made a report on the Personnel Service and urged the heads of departments in universities to be prompt in furnishing information as to students who have taken or are about to take the Ph.D. degree, and also to notify him at once of any teaching vacancies or positions, public or private, open to registrants in the Personnel Service. The Secretary-Treasurer also bespoke the coöperation of members of the Association whose membership terminates within the year in a plan for the adjustment of annual dues upon a calendar-year basis similar to the practice of other learned societies.—Kenneth Colegrove.
