The Perfected . . . Wyeth Beef Juice

IN THE ESTIMATION OF THE PHYSICIAN is due to its real excellence as a nutrient and stimulant, and to its easy assimilability and exceptional flavour. It places at the practitioner's disposal a genuine beef food, differing from all others in that it contains "the albuminous principles of beef in the condition in which they occur in the freshly expressed juice of beef itself." (*Lancet.*)

Supplied to the Medical Profession at 2s. 10d. per bottle.
