similar altered markers (although with different magnitude effect) in schizophrenia and schizotypy.

SP01. Human rights and psychiatric treatment: a round table of concerned partners

Chair: P. Cosvns (B)

Participants:

Jean Claus, Council of Europe (F) Jean Canneva, UNAFAM (F) Paul Cosyns, AEP (B)

Nina Rehnqvist, National Board of Health and

Welfare (S)

PL03. Plenary Nobel Laureate Lecture: Molecular biology of memory and its disorders

Introduction by: Sten Grillner (S)

PI 03

Molecular biology of memory and its disorders

E.R. Kandel*. Columbia University College of Physicians & Surgeons, Senior Investigator, Howard Hughes Medical Institute, USA

I will consider the molecular mechanisms whereby a transient short-term memory is converted into a stable, self-maintained, long-term memory. I will first outline studies in *Aplysia* and mice that show this conversion from short to long-term memory requires protein synthesis and this protein synthesis is reflected, on the cellular level, in the activation of a cascade of genes, that leads to the growth of new synaptic connections. Second, I will go on to consider mouse models of clinical defects in converting short to long-term hippocampal based memory, in particular age-related memory loss and Down's syndrome.

LS05. Health economics and schizophrenia (Sponsored by Eli Lilly, Sweden)

Chair: N. Sartorius (CH)

LS05.1

Introduction to health economics:terminology and concepts – types of economic evaluations. Choice perspective. Cost components. Markov models

L. Jönssen. Sweden

No abstract was available at the time of printing.

LS05 2

Ethical aspects - who should have the right to treatment

S. Thelander. Sweden

No abstract was available at the time of printing.

LS05.3

Health economic evaluations in schizophrenia

M. Knapp. UK

No abstract was available at the time of printing.

LS06. Insights, promise, and renewed hope in the treatment of schizophrenia (Sponsored by Bristol-Myers Squibb)

Chairs: L. Farde (S), M. Bourin (F)

LS06.1

Welcome and introduction

L. Farde. Sweden

No abstract was available at the time of printing.

LS06.2

Schizophrenia: a chronic illness seeking a long-term solution

R.S. Kahn. The Netherlands

No abstract was available at the time of printing.

LS06.3

Stabilizing the dopamine-serotonin system: a new goal in the management of schizophrenia

L. Farde. Sweden

No abstract was available at the time of printing.

LS06.4

Antipsychotic effect and clinical benefit in the management of schizophrenia

M. Bourin. France

No abstract was available at the time of printing.

LS06.5

Safety, tolerability and compliance in the use of antipsychotics

W.W. Fleischhacker. Austria

No abstract was available at the time of printing.
