

ERRATUM

Volume 56, Number 3 (2001), in the article “Late Pleistocene Environments of the Central Ukraine,” by Denis-Didier Rousseau, Natalia Gerasimenko, Zhanna Matviischina, and George Kukla, pages 349–356 (doi:10.1006/qres.2001.2270): On pages 353 and 354, Figs. 4 and 5 were reversed. On page 353, footnote *a* to Table 2 should read: “See Fig. 4,” instead of “See Fig. 5.” On page 353, in the second line under the heading “Paleoenvironments of the Vyazivok Region,” the reference to Fig. 4 should be to Fig. 5. On page 355, left column, line 12, the reference to Fig. 5 should be to Fig. 4. For the reader’s convenience, Figs. 4 and 5 appear with their correct legends here.

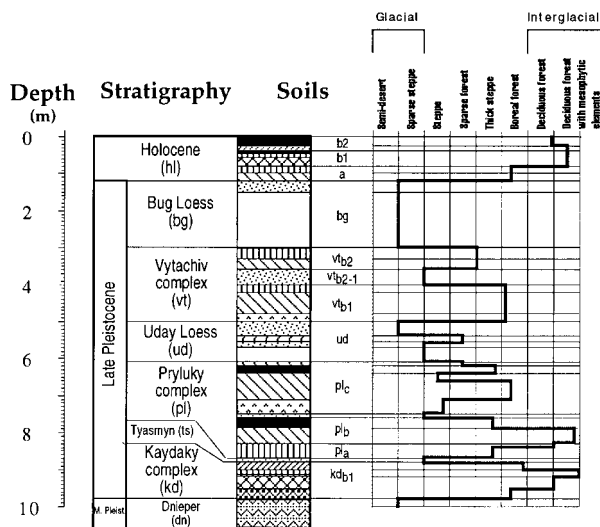

FIG. 4. Stratigraphy, soils, and paleoenvironments of the Vyazivok section. Environmental reconstructions are based on soil and pollen analyses. See Fig. 2 for key to stratigraphic units and soils.

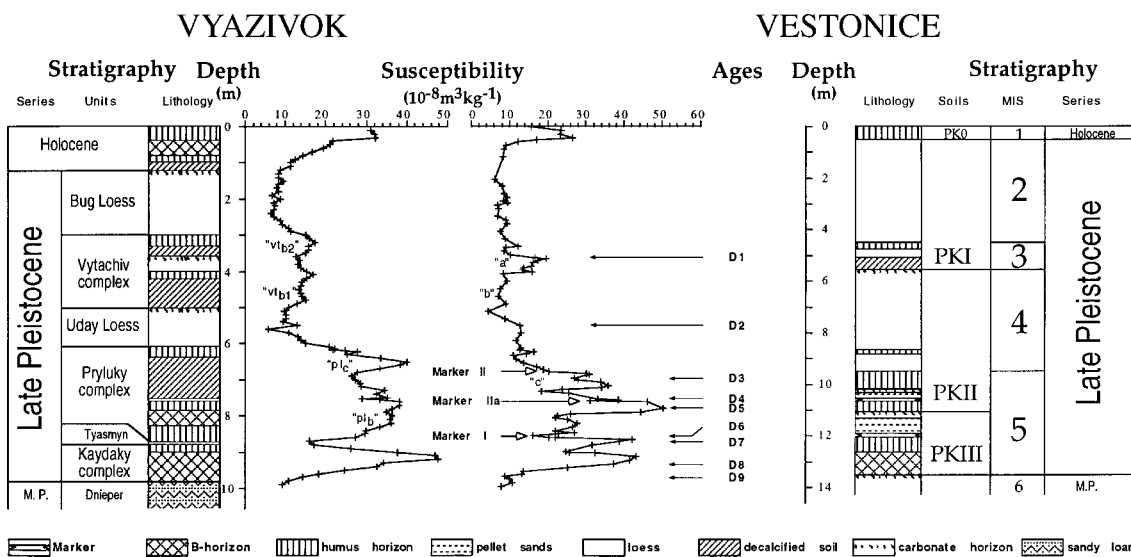

FIG. 5. Correlation of the late Pleistocene Vyazivok sequence, the Vestonice (Czech Republic) loess section, and marine isotope stages. Ages (D1–D9) are given in Table 2. The open arrows indicate the location of the marker horizons identified by Kukla (Kukla and Cilek, 1996).
