TABLE OF CONTENTS

ARTICLES

Well (and better) quasi-ordered transition systems, by Parosh Aziz Abdulla .......................... 457
Von Neumann, Gödel and complexity theory, by Alasdair Urquhart ................................. 516

REVIEWS

D. Hyde, Vagueness, logic and ontology. Reviewed by Nicholas J. J. Smith ....................... 531
N. J. J. Smith, Vagueness and degrees of truth. Reviewed by Dominic Hyde ....................... 533
W. Kienzler Begriff und Gegenstand. Reviewed by Matthias Wille ................................. 535
A. Bobenrieth M., The origins of the use of the argument of trivialization in the twentieth century. Reviewed by Matthias Wille .................................................. 537

Officers and Committees of the Association for Symbolic Logic .................................. 539
Members of the Association ......................................................................................... 545
Notices ...................................................................................................................... 600
CONTENTS OF VOLUME 16

ARTICLES

Abdulla, Parosh Aziz. Well (and better) quasi-ordered transition systems ....... 457
Coskey, Samuel and Kossak, Roman. The complexity of classification problems for models of arithmetic .................................................. 345
Fujimoto, Kentaro. Relative truth definability of axiomatic truth theories ........... 305
Klement, Kevin C. The senses of functions in the Logic of Sense and Denotation 153
McLarty, Colin. What does it take to prove Fermat’s Last Theorem? Grothendieck and the logic of number theory .................................................. 359
Medvedev, Alice and Takloo-Bighash, Ramin. An invitation to model-theoretic Galois theory ................................................................. 261
Moschovakis, Yiannis N. Kleene’s amazing Second Recursion Theorem .......... 189
Raghavan, Dilip. Almost disjoint families and diagonalizations of length continuum 240
Shore, Richard A. Reverse mathematics: the playground of logic .................. 378
Urquhart, Alasdair. Von Neumann, Gödel and complexity theory ................. 516

COMMUNICATIONS

Corazza, Paul. The Axiom of Infinity and transformations $j : V \to V$ ............ 37
Koellner, Peter. Strong logics of first and second order ............................. 1

REVIEWS

A. Nies, Computability and randomness. Reviewed by Anthony Morphett .......... 85
L. Kreiser, Logik und Logiker in der DDR. Eine Wissenschaft im Aufbruch. Reviewed by Matthias Wille .......................................................... 87
E. Menzler-Trott, Logic’s lost genius: The life of Gerhard Gentzen. Reviewed by W. W. Tait ............................................................. 270
N. B. Cocchiarella and M. A. Freund, Modal logic. An introduction to its syntax and semantics. Reviewed by Heinrich Wansing .......... 275
K. Bimbó and J. M. Dunn Relational semantics of nonclassical logical calculi. Reviewed by Alasdair Urquhart ......................................... 277
J. Zapletal, Forcing idealized. Reviewed by Mirna Džamonja ..................... 278
J. Harrison, Handbook of practical logic and automated reasoning. Reviewed by Alwen Tiu ............................................................ 279
S. Givant and P. Halmos, Introduction to Boolean algebras. Reviewed by Natasha Dobrinen ............................................... 281
R. Milner, The space and motion of communicating agents. Reviewed by Thomas Hildebrandt ......................................................... 282
Jc Beall, Splendrels of truth. Reviewed by Zach Weber ............................. 284
Two publications of G. Hjorth. Reviewed by Howard Becker ........................................ 403
J. van Oosten, Realizability: an introduction to its categorical side. Reviewed by Peter T. Johnstone .......................................................... 407
C. Benzmüller, C. Brown, J. Siekmann, and R. Statman (eds.), Reasoning in simple type theory. Reviewed by Florian Rabe ................................................. 409
J. Burgess, Philosophical logic. Reviewed by Lloyd Humberstone ..................................... 411
M. Peterson, An introduction to decision theory. Reviewed by Steven Robertson ............... 413
G. Metcalfe, N. Olivetti and D. Gabbay, Proof theory for fuzzy logics. Reviewed by Bartosz Więckowski .............................................................. 415
A. Doxiadis, C. Papadimitriou, A. Papadatos, and A. di Donna, Logicomix. Reviewed by Paolo Mancosu ................................................................. 419
The search for diamonds. Reviewed by Assaf Rinot ...................................................... 420
Five papers on axiomatic theories of truth. Reviewed by Graham E. Leigh ....................... 424
M. Schirn, On translating Frege's Die Grundlagen der Arithmetik. Reviewed by Matthias Wille ................................................................. 428
D. Hyde, Vagueness, logic and ontology. Reviewed by Nicholas J. J. Smith ....................... 531
N. J. J. Smith, Vagueness and degrees of truth. Reviewed by Dominic Hyde .................... 533
W. Kienzler Begriff und Gegenstand. Reviewed by Matthias Wille .................................. 535
A. Bobenrieth M. The origins of the use of the argument of trivialization in the twentieth century. Reviewed by Matthias Wille ........................................ 537

MEETINGS OF THE ASSOCIATION FOR SYMBOLIC LOGIC

2009 European Summer Meeting of the Association for Symbolic Logic, Logic Colloquium '09, Sofia, Bulgaria, July 31–August 5, 2009 ........................................ 90

MEETINGS SPONSORED BY THE ASSOCIATION FOR SYMBOLIC LOGIC

16th Workshop on Logic, Language, Information and Computation (WoLLIC 2009), Tokyo, Japan, July 21–24, 2009 .................................................. 143
11th Asian Logic Conference, National University of Singapore, Singapore, June 22–27, 2009 ................................................................. 288
The 2009 Annual Conference of the Australasian Association for Logic, University of Melbourne, Australia, July 11–12, 2009 ........................................ 445
Corrigendum ............................................................... 151
Erratum ................................................................. 456
Notices ................................................................. 145, 299, 450, 600
Officers and Committees of the Association for Symbolic Logic ........................................ 539
Members of the Association .................................................. 545
