The Olympic movement has brought not only splendid sporting competitions, but also synergy and solidarity among people from all over the world. The theme of the 2008 IACMR conference provides a broad scope for a variety of research that will contribute to the increasingly important knowledge of organizations and management in the Chinese context. We wish to advocate the Olympic spirit in fostering excellence in management research relating to China. We wish to carry out the Olympic ideal in facilitating cooperation, coordination, and collaboration among researchers with diverse research interests and backgrounds. Most importantly, we wish to celebrate what we do best: advancing management research while solving real-world problems.

The International Association for Chinese Management Research (IACMR), founded in 2001, is a professional, academic organization to serve scholars, students, managers, and consultants who are interested in advancing knowledge about the management of organizations operating in the Chinese context.

The primary goal of the Association is to promote scholarly studies of the organization and management of firms by

- Providing a forum for the exchange of ideas and experience among researchers about management research in the Chinese context.
- Facilitating international collaboration between management researchers around the globe.
- Promoting the development of management research capabilities IN and ON China.

Regular activities of the IACMR include:

- Bi-annual international conference beginning with the Inaugural Conference in Beijing, PRC, June 17–20, 2004 and the second conference was held in Nanjing, China on June 15–18, 2006.
- Business meeting at the same site as the Academy of Management meeting.
- Special lectures by distinguished professors and business leaders at the business meetings.
- Research seminars by leading Chinese and international scholars in China.
- Research methods workshops for Chinese scholars and doctoral students.
