Corrigendum

Psychiatric Bulletin, May 1995, **19**, 290. *Services for adults with learning disabilities and mental health needs*. By Shaun Gravestock and Nick Bouras. The first two sentences of the first paragraph on page 290 should read: Most respondents acknowledged that the additional clinical service and staff resources needed to support community care

developments had not been agreed between local providers. Furthermore, the worrying lack of reliable local service planning data and the diverse views of respondents about responsibility for care co-ordination suggest continuing confusions about appropriate mental health and social care provision for adults with LD and MHN in several districts.
