The Journal of Institutional Economics is owned by Millennium Economics Ltd, which has the following shareholders:

European Association for Evolutionary Political Economy (EAPE) www.eape.org

Foundation for European Economic Development (FEED) www.feed-charity.org

Society for the Advancement of General System Theory (SAGST) www.sagst.org

The Journal of Institutional Economics is an interdisciplinary journal that will be of interest to all academic working in the social sciences, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 30 days of submission. Our readership has sufficient grounding in reality, and the mathematics is consigned as formal or calculative. In this process, the paper enhances our understanding of past, present, or feasible socio-economic institutions. JOIE is not interested in the advanced level of institutions in the economy, including firms, states, markets, money, households and other social institutions and organizations. It welcomes contributions by all scholars of thought that can contribute to our understanding of the nature, evolution of institutions in the economy, including the World Bank, have recognized "Institutions are the stuff of social and economic science, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 30 days of submission. The Editor will acknowledge receipt of the manuscript, provide a manuscript reference number and advise to reviewers. The reference number of the manuscript should be quoted in all correspondence with JOIE Office and Publishers.

ARTICLE

There must be no indication of the personal identity or institution of any author of the article within the article itself, or in the "proofread" of the electronic file. Normally, articles (including footnotes and references) must be no longer than 9,000 words. In special cases, such as an extended review or survey article, this limit may be extended to 12,000 words. A declaration of the total word count (including footnotes and references) must accompany or be within the article.

Papers with some formal content will be considered if it is fully explained for a general readership. The mathematics is consigned as formal or economistic technique for data. The front page of the electronic file of the article should include the following information: the title, an abstract of the article of up to 300 words, the Journal of Institutional Economics Literature classification codes for the article (consisting of a single line followed by two numbers), the journal/journal joi_class_system.html, and up to six key words or short phrases.

Footnotes should be kept to a minimum and the Harvard referencing system should be used. Submission of a paper will be an understanding that it contains original unpublished material and is not being submitted for publication elsewhere.

The JOIE Editor will preliminarily assess all papers, and will send the first stage if it does not comply with the above guidelines, is evidently of insufficient academic quality or interest, or lies outside the scope of the journal. If a paper passes this preliminarily assessment, then it will be sent out to referees. The first Editors will make the final decision, taking account of the referees' reports.

If the article is accepted, the author will be asked to comply with the formal and house style of JOIE, as illustrated in issues of the journal from June 2005.

AIMS

"Institutions are the stuff of social and economic science, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 30 days of submission. The Editor will acknowledge receipt of the manuscript, provide a manuscript reference number and advise to reviewers. The reference number of the manuscript should be quoted in all correspondence with JOIE Office and Publishers.
