Too Hot to Handle
A Global History of Sex Education
Jonathan Zimmerman

Too Hot to Handle is the first truly international history of sex education. As Jonathan Zimmerman shows, the controversial subject began in the West and spread steadily around the world over the past century. As people crossed borders, however, they joined hands to block sex education from most of their classrooms. Examining key players who supported and opposed the sex education movement, Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling.

Academic Ambition and Middle-Class America
David B. Potts

A lively and probing analysis that explores the institutional development of twentieth-century liberal education

“David Potts’s first volume on Wesleyan history was a major achievement not just in academic history but in social history more broadly conceived. This one is even better. It fulfills the highest aspirations for any historian of any social institution.”
—Hugh Hawkins, Anson D. Morse Professor of History and American Studies Emeritus, Amherst College

“This superb follow-on to Pott’s first volume on the history of Wesleyan University maintains the exceptional quality of its predecessor: College histories tend to puffery, but this one is a solid, critical, and knowledgeable account. Potts here establishes himself as one of the finest historians of higher education, and Wesleyan gets the sort of history a great institution deserves.”
—Stanley N. Katz, lecturer/professor, Woodrow Wilson School, Princeton University

“An outstanding institution of higher education such as Wesleyan University deserves an outstanding institutional history, and David Potts has written just that. This is scholarship at its very best.”
