## OF THE

### EDINBURGH MATHEMATICAL SOCIETY

#### CONTENTS

H. F. JOINER, II: Summation and uncountable bi-orthogonal systems in locally convex spaces	<i>page 1</i>
D. C. RUSSELL: On bounded sequences satisfying a linear inequality	<i>page 11</i>
L. O'CARROLL: A note on free inverse semigroups	<i>page 17</i>
J. W. WAMSLEY: A class of finite groups with zero deficiency	<i>page 25</i>
H. L. CHOW: On supports of semigroups of measures	<i>page 31</i>
S. A. ILORI: On the generalised Todd genus of flag bundles	<i>page 35</i>
W. L. EDGE: The osculating spaces of a certain curve in $[n]$	<i>page 39</i>
J. DUNCAN AND A. W. TULLO: Finite dimensionality, nilpotents and quasiniptents in Banach algebras	<i>page 45</i>
P. R. HALMOS: Spectral approximants of normal operators	<i>page 51</i>
F. F. BONSALL AND A. C. THOMPSON: Banach algebra elements whose spectra intersect $\mathbf{R}^+$	<i>page 59</i>
I. SINHA: Passman-Zalesskii Radical of group algebras	<i>page 71</i>
D. L. GOLDSMITH: Minimal cohesive basic sets	<i>page 73</i>
K. KREITH: A nonselfadjoint dynamical system	<i>page 77</i>
Y. C. MING: On (von Neumann) regular rings	<i>page 89</i>
A. J. B. POTTER: A fixed point theorem for positive $k$ -set contractions	<i>page 93</i>
BOOK REVIEWS	<i>page 103</i>

SCOTTISH ACADEMIC PRESS

# THE EDINBURGH MATHEMATICAL SOCIETY

The Edinburgh Mathematical Society was instituted in 1883 for "the promotion and extension of Mathematical Science, Pure and Applied".

Nominations for Ordinary Membership are received at any one Ordinary Meeting and voted upon at the next. Members receive notices of all meetings and a copy of each issue of the Proceedings on publication; additional copies, and in-print back numbers from vol. 15 onwards, can be bought at a reduced price. Further information about membership can be obtained from the Secretary.

## PROCEEDINGS OF THE EDINBURGH MATHEMATICAL SOCIETY

Editors : F. F. BONSALE, W. D. COLLINS,

R. M. DICKER, A. D. SANDS, I. N. SNEDDON.

The Society's Proceedings, containing papers embodying the results of research that is original in matter or manner, are published in parts and issued twice yearly. Four parts complete a volume, the Title Pages and Index being published in Part 4. Series I comprised forty-four volumes published from 1886 to 1926. Series II commenced in 1927.

Papers to be considered for publication should be sent to the Secretary. Manuscripts, preferably typewritten on quarto size paper, must be top copies with generous margins and double spacing. The style and arrangement should conform to current practice in the Proceedings. References, including titles of papers, should be given in the form adopted by Mathematical Reviews, footnotes being avoided if possible. The figures must be suitable for line block reproduction, lettered in pencil, numbered and separated from the text; their intended location should be clearly indicated. Manuscripts which are not suitable for submission to the printer will not be accepted. Authors are advised to retain a copy of any material submitted, as the Society cannot accept responsibility for any loss.

A proof is supplied once in galley form. Authors are particularly requested to correct and return the proof promptly. Excessive corrections may be charged to authors. Twenty-five free offprints, and additional copies at cost, will be supplied if ordered on a form returned with the proof.

The prepaid annual subscription (2 parts) is £3.00 (U.S.A. and Canada \$8.50) post free. Single parts £1.50 (U.S.A. and Canada \$4.25) net.

Enquiries regarding purchase of back numbers should be addressed to

Kraus Reprint Ltd.  
9491, Nendeln  
Liechtenstein

for volumes of Series I and up to Volume 14 of Series II, and to the publishers

Scottish Academic Press Ltd.  
25 Perth Street  
Edinburgh EH3 5DW

for subsequent issues.

The Society's address is

The Edinburgh Mathematical Society  
20 Chambers Street  
Edinburgh EH1 1HZ

Communications concerning the Library should be addressed to the Librarian.

All other correspondence should be addressed to the Secretary.
