Notes for Contributors

Those wishing to submit manuscripts for publication in *JHET* should email the paper to jhet@historyofeconomics.org. All manuscripts that pass an initial screening are refereed.

1. Addresses for editorial correspondence are given on the inside front cover of this issue.

2. The final version should be in Word or WordPerfect for Windows. Please send an electronic version of the paper to the Editors at jhet@historyofeconomics.org. There is no need to send hard copies.

3. All copy must be double-spaced, including indented quotations, footnotes, and references. The right margin should be ragged, and the authors should use Times New Roman, 12 pt. font throughout.

4. Double quotation marks should be used for any quoted material that appears within the body of the text. Single quotation marks should be used for quotes within quotes.

5. The layout of papers, including title, section (sub-)headings, notes, and references should conform to the style evidenced in the Journal.

6. Citations in the text must be in round parentheses. The page numbers should be preceded by p., or pp. if multiple pages are cited. E.g. (Pearl 1996, pp. 167–68).

7. Endnotes should be embedded in the article, and their numbers should be indicated by superscripts in the text. All notes should be collected together and placed, double-spaced and beginning with a new page, at the end of the paper as endnotes.

8. Symbolic letters are italicized, whether in an equation or in the text. Numbers in equations and in symbolic terms in the text are not italicized, even if they are subscripts or superscripts.

9. Use an italic font, rather than underlines, for titles, emphases, etc. unless you do not have an italic font.

10. The first time that a person’s name is used in the text, his or her first name and middle initial, or an alternative appropriate form of reference beyond the surname, should also be given, no matter how well known the individual may be. E.g., John Maynard Keynes, H. Gregg Lewis, George J. Stigler, T.R. Malhous, Adam Smith.

11. The references should appear immediately after the text of the paper, and in the following format:

**REFERENCES**

12. Diagrams should be camera-ready, meaning professionally drawn and lettered.
