

The  
Institution of Aeronautical Engineers.

---

Minutes of Proceedings, No. 14,

being report of a lecture on

**The History and Evolution of the Avro  
Training Machine,**

given before the Institution by Mr. R. J. Parrott, A.C.G.I.,  
Honours Member, on the 9th January, 1925.

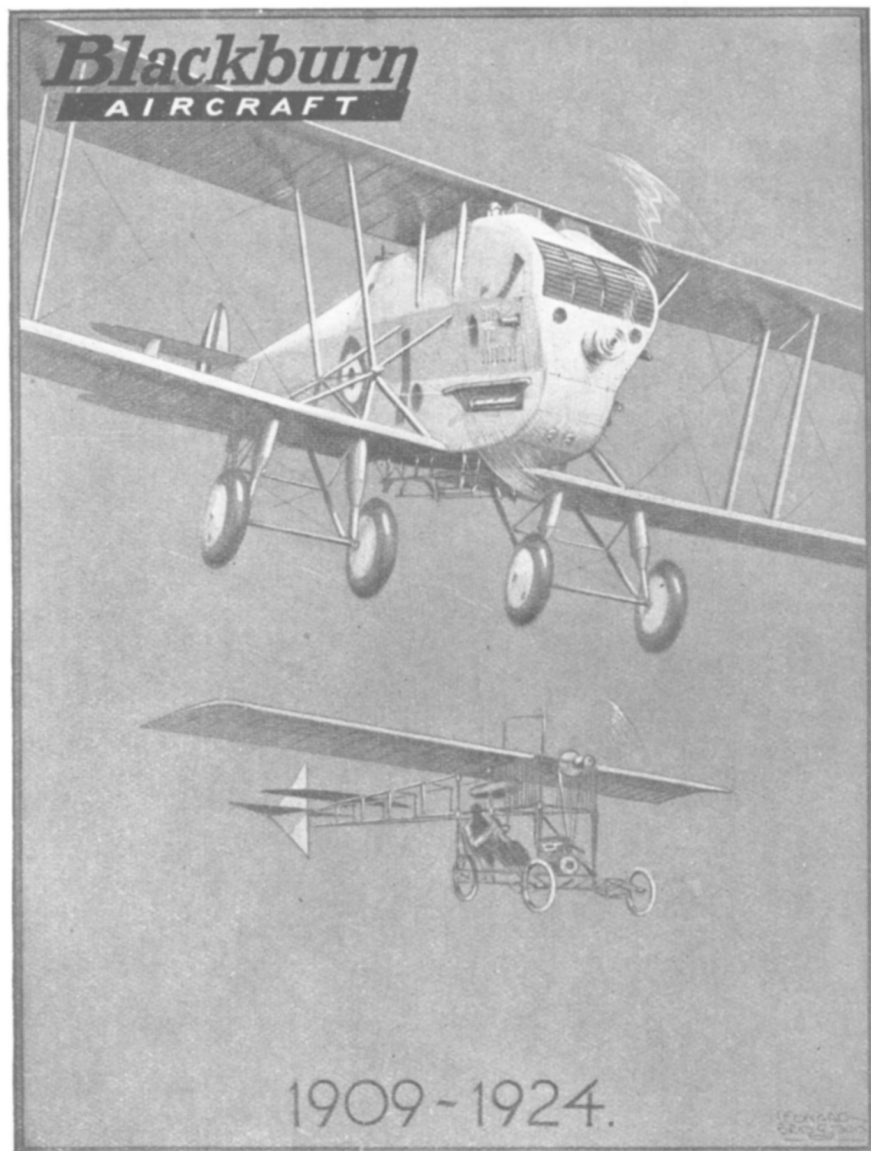

---

EDITING COMMITTEE.

S. T. G. Andrews.

W. L. Cowley.

L. Howard-Flanders.

In 1908 Robert Blackburn designed and built his first aeroplane, flying it himself in 1909, his aerodrome the sea shore, his cockpit a cane chair mounted on the undercarriage. To-day the Blackburn Company's engineers have a reputation second to none. Their experimental and school aerodrome covers many acres on the Humber north shore. Every advantage science and British Workmanship can produce is embodied in their machines.
