Molecular Nutrition

Caffeine modulation of liver gene variants and their effects on body weight trajectories in children from birth to 6 years of age: the PREDO Study Carine Finos, Domenico Ragonese, Miroslava Kries, Paola Biondo Girelli Cesi and Marco Fabio Mastroeni 241

Metabolism and Metabolic Syndromes

Nutritional Endocrinology

Long-term iodine nutrition is associated with longevity in older adults: a 20 year follow-up of the Randers–Skagen study Johannes Viss, Kaisa M. Peromaa, Matthieu B. Danielsson, Gordon R. B. Sørensen, Martin G. Jørgensen, Jens J. Andersen, Alice Cottu, Inge H. Pedersen, Christin Petterson and Sigrid Pedersen 268

Microbiology

Effects of different levels of rapeseed cake containing high glucosinolates in steer rations on ruminal fermentation, nutrient digestibility and the rumen microbial community Jian Gao, Yanfeng Sun, Yu Bao, Ke Zhou, Dehuang Kong and Guangyong Zhao 266

The rationale for a multi-step therapeutic approach based on antivirals, drugs and nutrients with immunomodulatory activity in patients with coronavirus-SARS2-induced disease of different severities Sirio Fiorino, Maddalena Zippi, Claudio Gallo, Debora Sifo, Sergio Sabbatani, Roberto Manfredi, Edoardo Rasciti, Leonardo Rasciti, Enrico Giampieri, Ivan Corazza, Paolo Leandri and Dario de Biase 275

Human and Clinical Nutrition

Dietary calcium and vitamin K are associated with osteoporotic fracture risk in middle-aged and elderly Japanese women, but not men: the Murakami Cohort Study Kseniia Platonova, Kaori Kitamura, Yumi Watanabe, Ribeka Takachi, Toshiko Saito, Keiko Kabasawa, Akemi Takahashi, Ryosaku Kobayashi, Rieko Oshiki, Aleksandr Solovev, Masayuki Iki, Shoichiro Tsugane, Ayako Sasaki, Osamu Yamazaki, Kei Watanabe and Kazutoshi Nakamura 319

Effects of different delivering matrices of β-glucan on lipids in mildly hypercholesterolaemic individuals: a meta-analysis of randomised controlled trials Olivia G. Swann, Monique Breslin, Michelle Kilpatrick, Therese A. O’Sullivan, Trevor A. Mori, Lawrence J. Beilin and Wendy H. Oddy 329

Letter to the Editors

Response to the letter to the editor by Tomoyuki Kawada, ‘Coffee/tea consumption and depression: a risk assessment’ Lisette E. M. Elstgeest, Ingeborg A. Brouwer and Marjon A. Stolk 357

COVID-19 and misinformation: how an infodemic fuelled the prominence of vitamin D Joshua Henrina, Michael Anthonius Lim and Raymond Pranata 359
