Special Section: The Influential Child

MAAYAN DAVIDOV, ARIEL KNAFO-NOAM, LISA A. SERBIN, AND ELLEN MOSS

947 The influential child: How children affect their environment and influence their own risk and resilience

Special Section Articles

NANCY EISENBERG, ZOE E. TAYLOR, KEITH F. WIDAMAN, AND TRACY L. SPINRAD

953 Externalizing symptoms, effortful control, and intrusive parenting: A test of bidirectional longitudinal relations during early childhood

LISA A. SERBIN, DANIELLE KINGDON, PAULA L. RUTTLE, AND DALE M. STACK

969 The impact of children’s internalizing and externalizing problems on parenting: Transactional processes and reciprocal change over time

GRAZyna KOCHANSKA, SANGHAG KIM, AND LEA J. BOLDF fitness

987 (Positive) power to the child: The role of children’s willing stance toward parents in developmental cascades from toddler age to early preadolescence

RUTH FELDMAN

1007 Mutual influences between child emotion regulation and parent-child reciprocity support development across the first 10 years of life: Implications for developmental psychopathology

KRISTINE MARCEAU, CAROLYN ZAHN-WAXLER, ELIZABETH A. SHIRTCLIFF, JANE E. SCHREIBER, PAUL HASTINGS, AND BONNIE KLIMES-DOUGAN

1025 Adolescents’, mothers’, and fathers’ gendered coping strategies during conflict: Youth and parent influences on conflict resolution and psychopathology

NURIT YIRMIYA, IREZ SREDEMAN, NINA KOREN-KARIE, DAVID OPHENHORST, AND SMADAR DOLEV

1045 Stability and change in resolution of diagnosis among parents of children with autism spectrum disorder: Child and parental contributions

(Contents continued on inside back cover)
The interplay of birth weight, dopamine receptor D4 gene (DRD4), and early maternal care in the prediction of disorganized attachment at 36 months of age

Child effects and child care: Implications for risk and adjustment

Violent peer influence: The roles of self-esteem and psychopathic traits

Temperament and peer problems from early to middle childhood: Gene-environment correlations with negative emotionality and sociability

Social and economic antecedents and consequences of adolescent aggressive personality: Predictions from the interactionist model

Take your mind off it: Coping style, serotonin transporter linked polymorphic region genotype (5-HTTLPR), and children’s internalizing and externalizing problems
