Cambridge’s economics list is renowned for the breadth and quality of its publishing.

Our book list is home to the work of some of the most important economists in the history of the discipline, most notably John Maynard Keynes, as well as the work of almost 30 Sveriges Riksbank Nobel Prize laureates, including Kenneth Arrow, Herbert Simon, Robert Solow and Joseph Stiglitz.

This is complemented by a cluster of key journals such as *Econometric Theory*, *Journal of Economic History* and *Journal of Financial and Quantitative Analysis*.

Notes for Contributors

Contributions. Contributions are welcome from all authors. They should be written in English.

Aims and Scope/Editorial Policy. Macroeconomic Dynamics publishes research of the highest theoretical, empirical or quantitative sophistication. Papers of high quality are welcomed from all areas of macroeconomics and from all parts of the world, as long as the research is founded in a rigorous scientific approach. Major advances in macroeconomics without immediate policy implications are also accepted, if they show potential for application in the future. Occasional book reviews, announcements, conference proceedings and interviews are also published. Special issues appear in the journal's Supplements Series, having its own Special Issues Editors. An electronic version of the journal will be published, simultaneously with the paper version enabling immediate access to the best current research in Macroeconomics.

Home Page. The journal has a home page on the web which is a source of further information about the journal. The location of the home page is at http://www.journals.cambridge.org/MD.

Information about Macroeconomic Dynamics may also be viewed at journals.cambridge.org/MD.

Copyright Transfer Agreement. Information about Copyright Transfer Agreement may be required at the Editor's discretion of the paper and that any person cited as an author to whom proof's should be sent.

End-of-proof signposts should appear as *ppp** pt in the right margin. References to equations written and the numbers for displayed equations should be placed in parenthesis in the text.
