Twin Family Registries Worldwide: An Important Resource for Scientific Research

Yoon-Mi Hur, Leonie H. Bogl, Juan R. Ordoñana, Jeanette Taylor, Sara A. Hart, Catherine Tuvblad, Eivind Ystrom, Christine Dalgård, Axel Skytthe and Gonneke Willemsen

Articles
Twin Research Australia: A New Paradigm for Driving Twin Research
Kate Murphy, Janine Lam, Teresa Cuffe, Jee Tyler, Luana Calori-Ferreira, Shani Li, Gella Litto, Pablo Ferreira, Jeffrey M Craig, Katrina J. Scourah and John L. Hopper

Epigenetic Influences on Neurodevelopment at 11 Years of Age: Protocol for the Longitudinal Peri/Postnatal Epigenetic Twins Study at 11 Years of Age (PETS@11)

Pamela Geling, Wei Jang-Lee, Richard Jaffrey, Tim Stik, Alce Burnett, Elaha Jassim, Katrina Scourah, Christine Thore, Anna Calpin, Emmanuel PK Fox, Marc J. Seal and Jeffrey M Craig

The East Flanders Prospective Twin Survey (EFPTS): 55 Years Later

Catherine Derom, Evert Thiery, Bart P. F. Rutten, Hilde Peeters, Marij Gielen, Esmée Bijnens, Robert Vlietinck and Steven Weyers

Mario Terno, Esmeralda Meireles-Lopes, Jeanna Demos, Ruud van Winkel, Fons de Vries, Pauline Enzinger, Maria-Theodora Myrtek, a, Marc De Hert, Catherine Derom, Evert Thiery, Nele Jacobs, Maritza Velez, Steven Weyers and Marga Plantenga

The Quebec Newborn Twin Study at 21

Michelle Buir, Mara Bhend, Gregoire Dumont, Isabelle Chalifour-Morin, Lisa Dubois, Daniel Piatto, Philippe Robaye, Richard E. Tremblay and Frank Vitaro

The Chinese National Twin Registry: A Unique Data Source for Systems Epidemiology of Complex Disease

The Beijing Twin Study (BeTwSi): An Update

Dandan Bi, Xinying Li, Jie Chen, Nengzhi Jiang and Jianxin Zhang

The Guangzhou Twin Eye Study: 2019 Update

Xiaohu Ding, Wei Wang, Jane Scheetz and Mingguang He

The Danish Twin Registry: An Updated Overview

Dorte Aalbrechts Larsen, Leif Thorlacius Larsen, Marianne Mygind, Jonas Møgel-Priest, Matt McGue, Christian Dalgaard, Lars Vestergaard, Jacob Heiberg, Axel Skytthe, Nada V. Holm, Kirsten Øhrn Kyvik and Anna Christensen

The University of São Paulo Twin Panel: Current Status and Prospects for Brazilian Twin Studies in Behavioral Research

Emilia Chita, Edson dos Santos Fernandes, Junia Andrade Bueno, Karen Lima dos Santos, Nancy L. Segal, Tania Kauff Latin, Isabella Maria Ferreira, Gustavo Carlos Carvalho, Vieira Fraeye Dorn, David Pires Tati, Pablo Cavallaro Short, Luana Cristina Venerables, Ana Carla Cruz and Maria-Lisa Touchino Moretto, Nana Cortes Andrade, Sylvia Cortes, Patricia Benavides, Carla Regina Brandell, Rino Cela Gonçalves dos Santos, Mauricio Lopes Júnior, Vera Shiu Bento, and Fernanda José Leite Almeida

SPECIAL ISSUE
Twin family registries worldwide: An important resource for scientific research

Guest Editors
Yoon-Mi Hur, Loonie H. Bogl, Juan R. Ordoñana, Jeanette Taylor, Sara A. Hart, Catherine Tuvblad, Eivind Ystrom, Christine Dalgård, Axel Skytthe and Gonneke Willemsen

(Contents continued on page 830)
Subscriptions Rates 2019

Individual subscriptions to Twin Research and Human Genetics which are classified as follows: UK and ROW.

- Non-professional/retired member: AUD80
- Student member: AUD100
- For those members who wish to receive a printed version, an additional fee of AUD20 may be paid.

For those interested in printed copies, please contact the publisher along with the copyright assignment form. Authors are prepared to the correct size (max. width 80 mm single column or up to 160 mm double column) and each one supplied as an individual file. For proofs, the corresponding author should indicated with the telephone, fax number and e-mail address provided. Please also provide a running title of not more than 50 characters.

Abstract

The second page of the manuscript should contain only an abstract of a paragraph of not more than 200-250 words. Abbreviations and reference citations should be avoided.

Introduction

The introduction should assume that the reader is knowledgeable in the field and should therefore be a brief as possible, not exceeding 1500 words. Do not use the heading ‘Introduction’.

References

References should follow the general format advocated by the Publication Manual of the American Psychological Association (6th ed.). However, in the text, ‘et al.’ should be used for references with three or more authors, as follows:

One author: Jones (1981)
Two authors: Jones and Smith (1981)
Three or more authors: Jones et al. (1981).

Tables, figures, graphs, illustrations and so on should be printed by the author to test that the fonts have been embedded correctly and there is no distortion in the artwork (e.g., lines and fonts reproduce clearly with no aliased or fuzzy edges), as such faults cannot be corrected by the publisher. Full page tables should be used and first and last page numbers for each manuscript should be identifiable as such.

Abbreviations

Those should be defined in parentheses after their first mention in the text, except for the use of accepted abbreviations, such as SI symbols, which need not be defined. Use generic names when referring to drugs; trade names may be included to cover the correct name of the drug for the various manufacturers.

instructions to Authors

Scope

Twin Research and Human Genetics is the official journal of the International Society for Twin Studies and the Human Genetics Society of Australasia. Twin Research and Human Genetics communicates the results of original research in human genetics with a special emphasis on multiple birth research. It also provides timely state-of-the-art reviews on all aspects of human genetics and twin studies.

Topics include: genetic epidemiology, behavioral genetics, complex traits, epigenetics, medical genetics, psychiatric genetics and other areas of human genetics, with a emphasis on twin studies.

Editorial policy

All contributions and general correspondence regarding editorial matters should be addressed to the Editor and sent to the Editorial Office.

Manuscripts submitted to the journal represent report of original research. Manuscripts will be sent for anonymous review either by members of the editorial board, or by individuals of standing in the field. Authors are requested to submit to us three suggested reviewers for the manuscript. Authors will be notified of a decision within 3 months. If the manuscript is returned to the corresponding author for revision, it should be returned to the Editors within 2 months or otherwise it may be considered withdrawn. Accepted manuscripts will appear in the journal within 3 months, whenever possible.

Preparation

All manuscripts should be in English presented electrically only in Word or Word Perfect. All sections of the manuscript should be double-spaced with a margin of at least one-fourth inch. Please submit manuscripts into the following section of format: Title page, Abstract, Introduction, Materials and Methods, Results, Discussion, Acknowledgment, References, Table, Figure legend. Number each page to page 1. Please indicate the position of each figure legend. This legend should be saved in TIF format. Minimum resolution for figures, graphs, illustrations and so on should be saved in TIF format. Minimum resolution for Power point need to be saved as PDFs.

4. Preferred method of submission: email as attachments to IETS@icsite.org.au. Email does not mandate this, it may be returned to you.

Reviews

Scholarly reviews of topics within the scope of Twin Research and Human Genetics will be considered for publication after peer review. Please note that manuscripts will be returned to the editor before preparing your manuscript to make sure that the review is a similar review is not in press.

Proofs

Manuscripts will be scheduled for publication upon receipt of proofs. By rejecting changes to the proofs will result in publication delay. Important information will not be acceptable, but they should not include extensive editorial detail. Please indicate in the manuscript the most appropriate position for each table using the table ‘Table X about here’.

Tables

These should be submitted in Word format, numbered consecutively with Arabic numerals, and placed after the references. Tables should be self-explanatory and include a brief descriptive title; footnotes indicated by lower case letters are acceptable; but they should not include extensive editorial detail. Please indicate in the manuscript the most appropriate position for each table using the table ‘Table X about here’.

Illustrations, graphics, photographs and mathematics

Electronic submission of a manuscript should be prepared to the correct size (max. width 80 mm single column or up to 160 mm double column) and each one supplied as an individual file. For proofs, the corresponding author should indicated with the telephone, fax number and e-mail address provided. Please also provide a running title of not more than 50 characters.
