## “More than Singing”

(An analysis of Lieder singing by one of the greatest living exponents of the art; foreword by Bruno Walter.)

“ . . . . . This book should be in the possession of every young singer of sensibility who wants to make a study of German *Lieder*, as a background for his or her own work. . . . .”

*Music Survey, September, 1948*

“ . . . . . The book is heartily recommended to all lovers of opera in general and particularly to those who have ambitions to become singers. . . . .”

*Pacific Coast Musician, July, 1948*

## “Benjamin Britten”

(The First Biographical Study.)

Benjamin Britten was born on St. Cecilia’s Day, 1913. This well-documented little volume is a study of his growth as a musician. The more important works are analysed in some detail, with musical examples. From the book as a whole there emerges a clear picture of his personality and way of thought.
