2013 IPA Junior Research Awards

Submissions are due 6 May 2013

Presented every two years at the IPA Congress, the *Junior Research Awards in Psychogeriatrics* were established in 1989 to recognize the best original, previously unpublished research in the field of Psychogeriatrics by junior researchers and encourage them to continue their groundbreaking work and participate in the field and IPA. Past award recipients include many scientists who have demonstrated outstanding leadership in the field.

The recipients will present their award-winning research:

- Session at the IPA 2013 Congress
 - 1-4 October 2013
 - Seoul, Republic of Korea
- Papers will be published in International Psychogeriatrics, IPA's Journal

In addition, each award recipient will receive:

- Complimentary 2013 IPA Congress registration
- US \$1,500 toward travel and accommodations for the Congress
- Complimentary one-year membership in IPA

Submissions are due 6 May 2013

Why wait until the next conference when you can join or start a discussion with colleagues right now?

Through the *IPA Member Forums*, you can discuss important research and care issues such as *International Psychogeriatrics* articles, share resources or exchange ideas on whatever has captured your interest with your colleagues in this new IPA online community.

As a member of the International Psychogeriatric Association (IPA), you will have access to the *IPA Member Forums* and be able to join member colleagues to discuss and improve elderly care through online groups ... anytime from wherever you or they might be.

Communication and Collaboration – the Heart of the IPA Community

- Interact anytime and anywhere with IPA colleagues
- Share research, documents and ideas
- Participate in discussions
- Collaborate in member groups, such as...

Primary Care Physicians Guide

The Only Resources You Need for All the Members of Your Team!

An IPA Members Benefit*

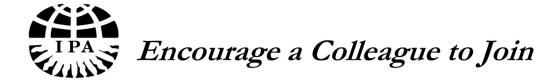

The recognition and appropriate management of BPSD are important factors in improving our care of dementia patients and their caregivers. The *IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD)* are comprehensive resources that provide a useful overview of the presentation and causes of BPSD and offer constructive guidance on treatment interventions.

- Designed to serve as a reference tool or as a training resource
- Modules can be used alone or together in a tailored approach to create your own customized program.
- IPA Members have <u>exclusive</u> complete access to the comprehensive online collection of BPSD resources

*As an IPA Member, you have access to the *IPA Complete Guides to BPSD* online at no additional charge!

Join IPA today! www.ipa-online.org

The International Psychogeriatric Association (IPA) is the leading multidisciplinary, international organization dedicated to the advancement of geriatric mental health knowledge.

Benefits of IPA Membership Include

- An opportunity to interact with colleagues around the world who share an
 interest in advancing research, education, and theory about mental health in
 older people especially through IPA Member Forums online and conference
 discussion/collaboration groups on various topics and issues.
- Education and meetings reflecting the many disciplines in Psychogeriatrics and the collective expertise of the world; IPA members receive special "members only" rates for all our meetings and activities.
- A subscription to *International Psychogeriatrics*, IPA's peer-reviewed monthly journal, which includes any additional special-focus supplements.
- *IPA Bulletin,* IPA's informative electronic newsletter with articles on recent research advances, global trends and the latest in how geriatric mental health care is practiced around the world.
- **IPA Online** the IPA website including member area with special features including access to fellow members, and the IPA Learning Portal.
- Behavioral and Psychological Symptoms of Dementia (BPSD) Education
 Materials are available to IPA members in electronic format at no additional
 charge. The BPSD materials include the newly revised eight-module IPA
 Complete Guide to BPSD Specialists, IPA Complete Guide to BPSD Nurses
 and in 2013, a newly revised edition for the Primary Care Physician.
- Support the growth of Psychogeriatrics around the world.

IPA's membership dues have been adjusted to accommodate the needs of a wide variety of colleagues worldwide. To find out what the membership rates are for your country, please visit www.ipa-online.org.

To join or to obtain a membership application, visit http://www.ipa-online.org, or contact:

International Psychogeriatrics

Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to International Psychogeriatrics are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.24 (2011). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. International Psychogeriatrics uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check mauscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org/ipg and www.ipa-online.org).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website journals. cambridge.org/ipg. Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

Manuscripts should be submitted online via our manuscript submission and tracking site, http://mc.manuscriptcentral.com/ipg. Full instructions for electronic submission are available directly from this site.
