

GERMANY AND THE LEAGUE OF NATIONS

Christoph M. Kimmich

Barred from the League of Nations after her defeat in the First World War, Germany was admitted in 1926 after long and difficult negotiations, only to withdraw in 1933. Christoph M. Kimmich has studied previously unexamined archival materials to provide the first book-length reconstruction and interpretation of Germany's relationship with the League.

A HISTORY OF MIDDLE EUROPE

From the Earliest Times to the Age of the World Wars
LESLIE C. TIHANY

Dominated by a succession of expansionist empires, the restless peoples of Middle Europe have been kept in an almost constant state of political dependence throughout their existence.

Dr. Tihany explores this complex history, deftly sorting the many political, religious, ethnic and cultural forces that led up to the modern period. And he shows how these forces shape the region's performance under Communist rule.

"Concise, well-written, and generally excellent."

THE CONCEPT OF THE POLITICAL BY CARL SCHMITT

Translated, with an Introduction and Notes by George Schwab.
Commentary on Schmitt's Essay by Leo Strauss.

A major statement by a political theorist who belongs "to the same intellectual family as Machiavelli, Hobbes and Max Weber." In "The Concept of the Political" Schmitt presents a conservative's view of the Weimar Republic and a searching critique of liberal democracy.

Recasting Bourgeois Europe
Stabilization in France, Germany and Italy
in the Decade after
World War I

CHARLES S. MAIER

"This ambitious effort at comparative history is based on a wealth of new material and inspired by the work of leading social thinkers. A challenging work, by an American historian."—*Foreign Affairs*

"A well-written and provocative work of reinterpretation and a major analysis of the collapse of liberalism . . . It should be consulted by anyone concerned with social and political history . . . as well as with the general course of western capitalist society in a period of great turmoil."
—*History*

"A triumphant demonstration that the old-fashioned discipline of political economy is still nearer to the real world than all the theories of econometricians . . ."
—*The New Republic*
