Editorial
Open access: is there a predator at the door?: R Chandra, EW Fisher, TM Jones, DW Kennedy, DH Kraus, JH Krouse, MJ Link, LT Lustig, BW O'Malley Jr, JF Piccirillo, R Ruben, RT Sataloff, S Schwartz, R Sindwani, RJ Smith, MS Stewart, PC Weber, DB Welling, R Youngs

Review Articles
Nasal changes associated with exercise in athletes: systematic review: P Surda, A Walker, J Limpens, W Fokkens, M Putala

History of intranasal splints: J Lau, HA Elhassan, N Singh

Main Articles

Does non-echo-planar diffusion-weighted magnetic resonance imaging have a role in assisting the clinical diagnosis of cholesteatoma in selected cases?: R Nash, RK Lingam, D Chandrasekharan, A Singh

Collagen matrix as an inlay in endoscopic skull base reconstruction: GM Oakley, JM Christensen, M Winder, RP Jonker, A Davidson, T Steel, C Teo, RJ Harvey

Electrode design and insertion depth-dependent intra-cochlear pressure changes: a model experiment: P Mittmann, A Ernst, J Todt

Long-term efficacy of standardised specific subcutaneous immunotherapy in children with persistent allergic rhinitis due to multiple allergens including house dust mites: Y Song, J Long, T Wang, J Xie, M Wang, G Tan

Polyps, grommets and eosinophilic granulomatosis with polyangiitis: F Kavanagh, W Hasan, DA Smyth, JE Fenton

The debate continues: a prospective, randomised, single-blind study comparing Coblation and bipolar tonsillectomy techniques: D Wiltshire, M Cronin, N Lintern, KF Fraser-Kirk, S Anderson, R Barr, D Bennett, C Bond

Prevention of pharyngocutaneous fistula in salvage total laryngectomy: role of the pectoralis major flap and peri-operative management: P Sittitrai, C Srivanitchapoom, D Reunmakkaew

Setting up a parathyroid multidisciplinary team meeting: one year's experience, outcomes and learning points: SH Hancox, JD Sinnott, P Kirkland, D Lipscomb, E Owens, DC Howlett

Presentation of automated procedural guidance in surgical simulation: results of two randomised controlled trials: S Wijewickrema, Y Zhou, I Ioannou, B Copson, P Piromchai, C Yu, R Briggs, J Bailey, G Kennedy, S O'Leary

Metastatic cutaneous squamous cell carcinoma of the parotid gland: prognostic factors: AC Coombs, A Butler, R Allison

An analysis of true- and false-positive results of vocal fold uptake in positron emission tomography-computed tomography imaging: N Seymour, G Burkill, M Harries

Vocal fold uptake in PET scanning: N Seymour, G Burkill, M Harries

Prognostic factors for therapeutic sialendoscopy: D Cox, L Chan, D Veivers

Clinical Record
Gorham–Stout disease of the temporal bone involving the temporomandibular joint: D Mulvihill, RS Kumar, J Muzaffar, R Irving

Medicine
Books and Journals from Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.

Apart from any fair dealing for the purposes of research or private study, or criticism or review, as permitted under the UK Copyright, Designs and Patents Act, 1988, no part of this publication may be reproduced, stored, or transmitted, in any form or by any means, without the prior permission in writing of the Editors, or in the case of reprographic reproduction in accordance with the terms of licences issued by the Copyright Licensing Agency in the UK, or in accordance with the terms of licences issued by the appropriate Reproduction Rights Organization outside the UK. Enquiries concerning reproduction outside the terms stated here should be sent to the publishers at the above address. Contributors and advertisers are responsible for the scientific content and the views expressed, which are not necessarily those of the Editors or of Cambridge University Press.

The text of the manuscript (incorporating all tables and the figures legends, but not the figures themselves) must be saved as a Microsoft Word document or an RTF file (i.e. ‘rich text format’). Use double-spaced, unjustified text throughout. The title page must contain the full title of the paper; the names and qualifications of all authors; the department(s) and institution(s) where the work was carried out; and the name, postal and e-mail address, and telephone and fax numbers of the author responsible for all communications about the manuscript and proofs. An Abstract (maximum 150 words) and Key words must be provided for all contributions (except Letters).

References should be identified in the text by superscript Arabic numerals and listed at the end of the manuscript in the order in which they are first cited in the text. The tables feature of the word processor should be used to prepare Tables, and both these and the list of Figure legends should appear on separate pages at the end of the manuscript. All Figures must be saved as separate TIFF files at a resolution of 600 dpi.

The authors of all material accepted for publication will be required to assign copyright to JLO (1984) Ltd; a form for this purpose and for ordering offprints will accompany the proofs. The proofs will be sent by e-mail to the corresponding author as a PDF file, and should be corrected and returned within three working days.

This Journal issue has been printed on FSC®-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world’s forests. Please see www.fsc.org for information.
