The ICDD® Grant-in-Aid Program

The International Centre for Diffraction Data (ICDD®) has increased grant-in-aid funding for the 2000–2001 grant cycle in order to allow more grants to be supported.

The ICDD® is interested in high quality experimental powder diffraction patterns to add to its internationally renowned database, the Powder Diffraction File™ (PDF®). The ICDD®'s Grant-in-Aid Program is designed to give limited financial support to those institutions interested in supplying new patterns. A grant can be used most effectively as a supplement to existing funded projects involving the preparation and characterization of new materials using X-ray powder diffraction.

There are two grant cycles with proposal deadlines of:

Cycle I	31 January
Cycle II	31 July

For more information, please review the guidelines found on the ICDD® web site, <http://www.icdd.com>, or contact:
