Membership subscriptions (except for the US)

Standard £15, concessionary (student, senior citizen, unwaged) £7, family £20, benefactor
£35, life £1000. (Please add £2 for other convertible currency.)

Membership subscriptions (US)

Individual \$25.00, family \$35.00, benefactor £500.00, contributor £100.00, life \$2000.00,
senior/student \$20.00.

US Members: FFPS Inc is registered as a tax-deductible charity.

WITH FFPS YOU KNOW WHERE ALL YOUR GIFT GOES

Nearly everybody donates to one charity or another,
but where does your money **really** go?

A legacy to the ORYX 100% Fund means
your gift—100% of it—will go direct to
save an endangered species.

Please write to the FFPS office for further details.

WOW — A GORILLA IN YOUR LIVING ROOM . . .

NDUME is a silverback mountain gorilla in Rwanda's Parc National des Volcans.

Wildlife On the Wall is offering a unique photo-portrait of Ndume, from a photograph by Ian Redmond, which captures the powerful presence of this magnificent animal. It is suitable for framing and mounting.

Send £2.50, inc. p&p, (£4.50 for two) to:
WOW Posters (F), 38 Lime Road, Bristol,
BS3 1LT.

*Also available at Ian Redmond lectures
around the country.*

Animal Behaviour: A Concise Introduction

M. Ridley MA, DPhil, Research Fellow,
Animal Behaviour Research Group,
Department of Zoology, University of Oxford

This fascinating book is designed as a concise introductory guide to animal behaviour. The subject is introduced through thoroughly-described and well-illustrated examples, and will be intelligible to readers who know only the rudiments of biology. The text is up-to-date, and covers the whole science of animal behaviour.

Outline of Contents:

The biology of behaviour; The machinery of behaviour; The genetics and development of behaviour; Movements and migrations; Eating and not being eaten; Signals; Fighting; Sex; Altruism and social life; Epilogue.

1986. 210 pages, 86 illustrations. Paper, £8.80.

ISBN 0 632 01416 4.

THE NATURAL HISTORY OF ANTELOPES

C.A. Spinage

The third volume in a major new mammal series, *The Natural History of Antelopes*, contains a wealth of new information gathered from recent research into this fascinating group of animals.

It concentrates on the African species, looking at the antelope's origins and adaptations and then examines their biology and ecology in detail, covering habitat, their relationship with the environment, feeding, communication, breeding, territoriality and other forms of social organisation. Well illustrated in colour and black and white, this new study provides an invaluable source of information on these beautiful but neglected animals.

£14.95 0-7099-4441-1

224 pages Illustrated in colour and black and white.
October '86

THE NATURAL HISTORY OF BUTTERFLIES

John Feltwell

The Natural History of Butterflies is an intriguing study of the butterfly's spectacular lifestyle. It describes and explains the complexities of butterfly migration, feeding, territoriality and colouration and with particular emphasis on conservation. Butterflies are beautiful and sophisticated insects – *The Natural History of Butterflies* provides invaluable insights into their many mysteries.

£ 7.95 pbk 0-7099-4905-7

£12.95 hbk 0-7099-1058-2

160 pages Illustrated in colour and black and white.
October '86

Books should be ordered from booksellers. In case of difficulty, send your order to Christopher Helm Ltd., Imperial House, 21–25 North Street, Bromley, Kent BR1 1SD. Please add £1.50 for p&p.

Both books published in the U.S.A. by Facts on File.

CHRISTOPHER HELM

PUBLISHERS LIMITED

Incorporating Croom Helm General Books

Books on Natural History

Golden Days in the Desert:

Flowers of Saudi Arabia £28

A photographic study by Betty A. Lipscomb Vincett of the still relatively little documented flora of Saudi Arabia with over 120 colour plates illustrating 63 plant species.

Inland Birds of Saudi Arabia £30

Lavishly illustrated with full colour photographs by the author Jill Silsby, this title includes details of migratory and nesting birds together with information on habitat and sightings.

Red Sea Reef Fishes £32

Dr. John E. Randall describes in detail 325 species of Red Sea reef fishes, enhanced by the author's own colour photographs.

Divers' Guide to Red Sea Reef Fishes £20

Waterproof supplementary volume to the above, containing numerous colour photographs, with common and scientific names of each species.

The Red Sea £24

An informative and colourful book in which author, Dr. Peter Vine explores all aspects of the Red Sea with emphasis on its rich marine environment.

Sharks of Arabia £26

Just published, this is the latest addition to our knowledge of Red Sea, Indian Ocean and Arabian Gulf Sharks. Dr. Randall has combined scientific accuracy with a presentation which is of interest to the general reader and scientist alike.

To be published – Autumn 1986

Red Sea Handbook:

Guide to Dangerous Animals

In this book the author, Dr. Peter Vine, aims to inform divers of some of the dangers of the Red Sea's marine environment and gives advice on how to avoid accidents, or deal with them should they occur.

Red Sea Invertebrates

In this well-researched book, Dr. Vine provides an up to date description of invertebrate species found in the Red Sea, with comprehensive checklists which will be of use to amateur and professional divers alike. Ecological notes, over 270 full colour photographs and many detailed line drawings serve to make this an attractive publication for anyone with an interest in marine life.
