International Journal of ASIAN STUDIES

Instructions for contributors
IJS publishes research on Asia, primarily in the social sciences and humanities. The Journal is particularly interested in locating contemporary changes within a historical framework, especially using interdisciplinary approaches, and promotes comparative studies involving the various regions of Asia. While the Journal will publish scholars from around the world, it aims to focus attention on the work of Asian scholars, in order to encourage multi-directional scholarly communication in Asian studies. IJS seeks both original papers and survey articles that fall within its scope. Since the Journal is attempting to cross methodological boundaries, it will welcome papers that develop new methodologies within their general approach. For further information, visit www.ioc.u-tokyo.ac.jp/pub/i-journal_as/journal.htm
