

Life Sciences

Books and Journals from
Cambridge University Press

Cambridge is one of the leading publishers in ecology and conservation biology and publishes high quality texts and research across the breadth of the life sciences, focusing particularly on animal behaviour, biological anthropology, evolutionary biology, computational and systems biology, as well as statistics and professional development titles for biologists.

We also have an extensive portfolio of established journals in agriculture, ecology and conservation, and animal science.

Instructions for Contributors

Bird Conservation International publishes papers and communications on subjects relevant to the conservation of birds, with a general preference for those addressing international or high national priorities.

Submission of manuscripts. Electronic versions of papers should be submitted online at <https://www.cambridge.org/bci> or, in exceptional circumstances, via email to bcieditor@bto.org. Please follow the guidelines in the Instructions for Authors.

Proofs. The corresponding author will receive, by email, page proofs for checking which they are required to return within three days of receipt. Textual changes in proof cannot normally be countenanced and the publisher reserves the right to charge authors for excessive correction of non-typographical errors.

Copyright. Authors of articles published in the journal assign copyright to BirdLife International (with certain rights reserved) and a copyright assignment form will be sent to the author for signature on acceptance of a paper.

Printed in the UK by Bell & Bain

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

Bird Conservation International

Contents

Important Bird and Biodiversity Areas (IBAs)

Important Bird and Biodiversity Areas (IBAs): the development and characteristics of a global inventory of key sites for biodiversity

Paul F. Donald, Lincoln D. C. Fishpool, Ademola Ajagbe, Leon A. Bennun, Gill Bunting, Ian J. Burfield, Stuart H. M. Butchart, Sofia Capellan, Michael J. Crosby, Maria P. Dias, David Diaz, Michael I. Evans, Richard Grimmett, Melanie Heath, Victoria R. Jones, Benjamin G. Lascelles, Jennifer C. Merriman, Mark O'Brien, Iván Ramírez, Zoltan Waliczky and David C. Wege 177

Important Bird and Biodiversity Areas (IBAs): their impact on conservation policy, advocacy and action

Zoltan Waliczky, Lincoln D. C. Fishpool, Stuart H. M. Butchart, David Thomas, Melanie F. Heath, Carolina Hazin, Paul F. Donald, Aida Kowalska, Maria P. Dias and Tristram S. M. Allinson 199

Conservation of Migrant Landbirds

Arboreal birds do not avoid scattered trees in West Africa

Leo Zwarts, Rob G. Bijlsma and Jan van der Kamp 216

Over-winter ecology and relative density of Canada Warbler *Cardellina canadensis* in Colombia:

the basis for defining conservation priorities for a sharply declining long-distance migrant
Laura N. Céspedes and Nicholas J. Bayly 232

Research Articles

Birds of different feather flock together - genetic structure of Taiga Bean Goose in Central Scandinavia

Adriaan de Jong, Oddmund Kleven, Jan Eivind Østnes, Rolf Terje Kroglund, Isak Vahlström, Jan Nilsson and Göran Spong 249

Use of semi-intensive shrimp farms as alternative foraging areas by migratory shorebird populations in tropical areas

Juan G. Navedo and Guillermo Fernández 263

Behavioural consequences of human disturbance on subantarctic Yellow-eyed Penguins *Megadyptes antipodes*

Rebecca K. French, Chris G. Muller, B. Louise Chilvers and Phil F. Battley 277

Yellow-naped Amazon *Amazona auropalliata* populations are markedly low and rapidly declining in Costa Rica and Nicaragua

Timothy F. Wright, Thomas C. Lewis, Martín Lezama-López, Grace Smith-Vidaurre and Christine R. Dahlin 291

Opposing population trajectories in two bustard species: a long-term study in a protected area in Central Spain

Fabián Casas, François Mougeot, Beatriz Arroyo, Manuel B. Morales, Israel Hervás, Eladio L. García de la Morena, William F. Fagan and Javier Viñuela 308

Short Communications

Extreme rainfall-related clutch size variation in the Critically Endangered Raso Lark *Alauda razae* of the arid Cape Verde islands

M. de L. Brooke 321

Preliminary survival and movement data for a declining population of Flesh-footed Shearwater

***Ardena carneipes* in Western Australia provides insights into marine threats**
Jennifer L. Lavers, Simeon Lisovski and Alexander L. Bond 327
