VOL. XXXVIII.

---

LONDON:  
J. AND A. CHURCHILL,  
NEW BURLINGTON STREET.

MDCCCXCII.

"IN adopting our title of the *Journal of Mental Science, published by authority of the Medico-Psychological Association*, we profess that we cultivate in our pages mental science of a particular kind, namely, such mental science as appertains to medical men who are engaged in the treatment of the insane. But it has been objected that the term mental science is inapplicable, and that the terms, mental physiology, or mental pathology, or psychology, or psychiatry (a term much affected by our German brethren), would have been more correct and appropriate; and that, moreover, we do not deal in mental science, which is properly the sphere of the aspiring metaphysical intellect. If mental science is strictly synonymous with metaphysics, these objections are certainly valid, for although we do not eschew metaphysical discussion, the aim of this Journal is certainly bent upon more attainable objects than the pursuit of those recondite inquiries which have occupied the most ambitious intellects from the time of Plato to the present, with so much labour and so little result. But while we admit that metaphysics may be called one department of mental science, we maintain that mental physiology and mental pathology are also mental science under a different aspect. While metaphysics may be called speculative mental science, mental physiology and pathology, with their vast range of inquiry into insanity, education, crime, and all things which tend to preserve mental health, or to produce mental disease, are not less questions of mental science in its practical, that is, in its sociological point of view. If it were not unjust to high mathematics to compare it in any way with abstruse metaphysics, it would illustrate our meaning to say that our practical mental science would fairly bear the same relation to the mental science of the metaphysicians as applied mathematics bears to the pure science. In both instances the aim of the pure science is the attainment of abstract truth; its utility, however, frequently going no further than to serve as a gymnasium for the intellect. In both instances the mixed science aims at, and, to a certain extent, attains immediate practical results of the greatest utility to the welfare of mankind; we therefore maintain that our Journal is not inaptly called the *Journal of Mental Science*, although the science may only attempt to deal with sociological and medical inquiries, relating either to the preservation of the health of the mind or to the amelioration or cure of its diseases; and although not soaring to the height of abstruse metaphysics, we only aim at such metaphysical knowledge as may be available to our purposes, as the mechanician uses the formularies of mathematics. This is our view of the kind of mental science which physicians engaged in the grave responsibility of caring for the mental health of their fellow men, may, in all modesty, pretend to cultivate; and while we cannot doubt that all additions to our certain knowledge in the speculative department of the science will be great gain, the necessities of duty and of danger must ever compel us to pursue that knowledge which is to be obtained in the practical departments of science, with the earnestness of real workmen. The captain of a ship would be none the worse for being well acquainted with the higher branches of astronomical science, but it is the practical part of that science as it is applicable to navigation which he is compelled to study."—J. C. Bucknill, M.D., F.R.S.

THE  
MEDICO-PSYCHOLOGICAL ASSOCIATION  
OF GREAT BRITAIN AND IRELAND.

THE COUNCIL, 1892-93.

PRESIDENT.—ROBERT BAKER, M.D.

# A DICTIONARY OF PSYCHOLOGICAL MEDICINE

GIVING THE DEFINITION, ETYMOLOGY AND SYNONYMS OF THE  
TERMS USED IN MEDICAL PSYCHOLOGY

WITH THE

*SYMPTOMS, TREATMENT, AND PATHOLOGY OF INSANITY*

AND THE

Law of Lunacy in Great Britain and Ireland.

EDITED BY

D. HACK TUKE, M.D., LL.D.,

Examiner in Mental Physiology in the University of London; Lecturer on Psychological Medicine at the Charing Cross Hospital Medical School; co-Editor of "The Journal of Mental Science."

ASSISTED BY NEARLY ONE HUNDRED AND THIRTY CONTRIBUTORS.

---

This Work, the first of the kind which has been attempted, aims at providing information, more or less systematic, in regard to the Definition, Etymology and Synonyms of the Terms used in Medical Psychology, with the Symptoms, Pathology and Treatment of the recognized Forms of Mental Disorder, together with an abstract of the Law of Lunacy in Great Britain and Ireland.

A large number of short Definitions of words have been introduced.

Articles of greater length treat of the most important subjects which fall under the head of Psychological Medicine.

The Philosophy of Mind is expounded in a separate Introductory Article, and is not lost sight of in the Shorter Definitions and other Articles; but it is to be borne in mind that the fundamental aim of the Dictionary is directed to Morbid Psychology, and not to Mental Science in its ordinary restricted sense.

An account is given of the methods of Psycho-Physical Research which have been introduced in recent times into Psychological Laboratories established in various Universities in Europe and in the United States; also of the results which have been reached in regard to the Reaction-time of Mental Phenomena.

The History of the Insane, and the reforms undertaken to ameliorate their condition in various countries of the world, have been fully given.

An important feature of the Dictionary is the introduction of Bibliographical References in connection with the most important subjects treated of in the Articles; and, in addition to these, a copious Bibliography of English works bearing upon Psychological Medicine will be found at the close of the Work.

Illustrations of the various types of Insanity are given, and in addition, Engravings intended to facilitate the understanding of other subjects described in the Dictionary.

By CHARLES MERCIER, M.B., F.R.C.S., Etc.

Lecturer on Neurology and Insanity at the Westminster Hospital and at the London Medical School for Women; late Assistant Medical Officer, City of London Asylum; Senior Assistant Medical Officer, Leavesden Asylum. Author of "Sanity and Insanity," "The Nervous System and the Mind," etc., etc.

LONDON: J. & A. CHURCHILL, 11, NEW BURLINGTON STREET.

*Now ready, with Plates, 8vo, 4s.*

## Reform in the Treatment of the Insane.

EARLY HISTORY OF THE RETREAT, YORK; ITS OBJECTS AND INFLUENCE.

By D. HACK TUKE, M.D., LL.D., Formerly Assistant and subsequently Visiting Medical Officer to the Retreat.

LONDON: J. & A. CHURCHILL, 11, NEW BURLINGTON STREET.

Fourth Edition, 12 Plates (4 being Coloured), 8vo, 25s.

## MANUAL OF PSYCHOLOGICAL MEDICINE.

BY

J. C. BUCKNILL, M.D., F.R.S., and D. HACK TUKE, M.D., F.R.C.P.

"It is not too much to say that it is the best and most favourably known to the medical and legal professions, by both of whom it is quoted as the highest authority. It has acquired this enviable standing from the high reputation of its authors, from the correctness of the views and opinions expressed, and from its fulness. More than any work by English authors it deals with the subject of insanity in all its relations."—*Amer. Journ. of Insanity*.

London: J. & A. CHURCHILL, 11, New Burlington Street.
