

LESTER J. UNGER, M. D.

***In Memoriam***

*A faithful friend of our Journal and of the Mendel Institute, Dr. Lester J. Unger, has left us.*

*His warm, enthusiastic, active cooperation ranged from authorship of scientific papers to assistance in providing rare antisera or testing blood samples and many other freely given services.*

*Dr. Unger's annual visits to Rome were welcome occasions for us to renew our friendship and for him to share his knowledge with the students and staff at the Mendel Institute.*

*He was a member of the Advisory Board of this Journal and Consultant for Immunohematology to the Mendel Institute.*

*We all join with his family and friends in paying a heartfelt tribute to his memory.*
