Molecular Nutrition
Statistical analysis of human microarray data shows that dietary intervention with n-3 fatty acids, flavonoids and resveratrol enriches for immune response and disease pathways
A. Warburton, O. Vasieva, P. Quinn, J. P. Stewart & J. P. Quinn 239-249

Human and Clinical Nutrition
Effects of preprandial dietary supplementation on anthropometric indices, glycemic control, blood pressure, lipid profile, insulin resistance and appetite in patients with and without elevated triglyceride levels
Reducing carbohydrate during a glucose challenge with the egg white protein or whole egg protein protects against postprandial impairments in vascular endothelial function in prediabetic men by lowering increase in glycemia and lipid peroxidation

Dietary Surveys and Nutritional Epidemiology
Dietary patterns and their association with nutritional status and risk factors for cardiovascular disease
K. A. Mulder, R. Elango & S. M. Innis 271-279

Prenatal vitamin D status and offspring's growth, adiposity and metabolic health: a systematic review and meta-analysis

Behaviour, Appetite and Obesity
Cognitive enhancement in old dogs from dietary supplementation with a nutrient blend containing arginine, antioxidants, B vitamins and fish oil
Y. Pan, A. D. Kennedy, T. J. Jönsson & N. W. Milgram 349-358
British Journal of Nutrition

An International Journal of Nutritional Science

Volume 119, 2018
ISSN: 0007-1145

Aims and Scope

The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on all aspects of nutritional science as applied to nutrition. Correspondence is encouraged in a Nutrient Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twelve monthly by Cambridge University Press on behalf of The Nutrition Society. The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Editor-in-Chief

G C Birdie, University of Southampton, UK

Deputy Editors

J B Anderson, University of North Carolina, USA
A J Bundred, University of Padova, Germany
D Huttley, J Tagger, New University of New South Wales, Australia
K G Jackson, University of Reading, UK
D N McLaren, Texas A&M University, USA

The Nutrition Society has as its objective the advancement of the scientific knowledge of nutrition, whether human or animal, and the application of nutrition to the maintenance of human and animal health.

Applications of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, or whether experimental, clinical, agricultural or minimal in nature. There is also a student membership scheme with reduced subscriptions.

Special sales and supplements:

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Sarah Maddox at the Cambridge address for further details. E-mail: special_sales@cambridge.org

Subscription information:

British Journal of Nutrition is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2018 comprise Volume 119, the twelve issues starting July 2018 comprise Volume 120.

Annual subscription rates:

Volumes 119/120 (24 issues)

Internet/print package £1598/$3115/€2559

Internet only: £1110/$2164/€1773

Any supplements to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

Back volumes are available. Please contact Cambridge University Press for further information.

Claims for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

US POSTMASTERS: please send address corrections to British Journal of Nutrition, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Directions to Contributors are available from the Society at the address below or can be found on the Society’s website at http://www.nutritionssociety.org

Offprints: The author (or main author) of an accepted paper will receive a copy of the PDF file of their article. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

Copyright: As of 1 July 2000 the copyright of all articles submitted to British Journal of Nutrition is retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Sheepards Bush Road, Hammersmith, London W6 7NJ, UK.
