Agents for Canada, India, and Pakistan: Macmillan*

CONTENTS

PART 1 (JANUARY 1953)

	PAGE
CHINLOY, T., INNES, R. F. and FINNEY, D. J. An example of fractional replication in an experiment on sugar cane manuring. (With One Text-figure)	1
HENDERSON, A. E. Fleece development and wool growth on the Romney lamb. (With Plates 1 and 2 and Twenty-one Text-figures)	12
CHANDA, R. The partition of carotenoids and vitamin A in the colostrum and milk of the cow and the goat. (With Five Text-figures)	54
PHILLIPS, R. Meat production from cattle in West Wales 1943-8	72
PATTERSON, H. D. The analysis of the results of a rotation experiment on the use of straw and fertilizers	77
JEWITT, T. N. Seasonal variations in the composition of young cotton leaves in the Sudan Gezira	89
DAMMERS, J. The importance of vitamin B ₁₂ for pig feeding	92
NICHOLSON, H. H. and FIRTH, D. H. The effect of ground water-level on the performance and yield of some common crops. (With Plate 3 and Ten Text-figures)	95
BELL, G. D. H. and SACHS, LEO. Investigations in the Triticinae. II. The cytology and fertility of intergeneric and interspecific <i>F</i> ₁ hybrids and their derived amphidiploids. (With Plate 4)	105
BOLTON, W. Observations on the vitamin metabolism of the common fowl. III. The effects of oestradiol dipropionate, testosterone propionate and progesterone injections in immature pullets on the riboflavin content of the magnum	116
BOLTON, W. Observations on the vitamin metabolism of the common fowl. IV. Free and combined riboflavin in the magnum and liver of the laying hen fed a diet high in riboflavin	120
WIENER, G. Breed structure in the pedigree Ayrshire cattle population in Great Britain. (With Two Text-figures)	123

PART 2 (APRIL 1953)

LUTWAK-MANN, C. and ROWSON, L. E. A. The chemical composition of the pre-sperm fraction of bull ejaculate obtained by electrical stimulation	131
HUGHES, G. PEARSON and EYLES, DUDLEY E. Extracted herbage leaf protein for poultry feeding. I. Introduction and feeding trial with laying hens	136
HUGHES, G. PEARSON and EYLES, DUDLEY E. Extracted herbage leaf protein for poultry feeding. II. The use of leaf protein in chick rations. (With Two Text-figures)	144
HUGHES, G. PEARSON and EYLES, DUDLEY E. Extracted herbage leaf protein for poultry feeding. III. The digestibility of the residual product resulting from the extraction of herbage leaf protein	152

	PAGE
GLOVER, J. The nutrition of maize in sand culture. I. The balance of nutrition with particular reference to the level of supply of nitrogen and phosphorus. (With Two Text-figures) .	154
GLOVER, J. The nutrition of maize in sand culture. II. The uptake of nitrogen and phosphorus and its relevance to plant analysis. (With Three Text-figures)	160
DODSWORTH, T. L. and CAMPBELL, W. H. MCK. Report on a further experiment to compare the fattening values, for beef cattle, of silage made from grass cut at different stages of growth, together with the results of some supplementary experiments. (With Thirteen Text-figures)	166
DONALD, H. P. and HANCOCK, J. L. Evidence of gene-controlled sterility in bulls	178
POMEROY, R. W. Studies on piglet mortality. I. Effect of low temperature and low plane of nutrition on the rectal temperature of the young pig. (With Nine Text-figures)	182
LUCAS, I. A. M. and THOMSON, W. The effect of flooring upon pigs reared in an otherwise cold environment. (With Two Text-figures)	192
YEATES, N. T. M. The effect of high air temperature on reproduction in the ewe	199
SACHS, LEO. The occurrence of hybrid semi-lethals and the cytology of <i>Triticum macha</i> and <i>Triticum vavilovi</i> . (With Plates 5 and 6)	204
HEAD, M. J. The effect of pregnancy and lactation in the ewe on the digestibility of the ration with a note on the partition of nitrogen in the foetus at full term	214
YOUNG, GILBERT B. A study of genotype environment interaction in mice. (With Five Text-figures)	218
ARMSTRONG, D. G. and THOMAS, BRYNMOR. The nutritive value of <i>Calluna vulgaris</i> . II. A preliminary study of digestibility	223
BIRCH, H. F. Phosphate response, base saturation and silica relationships in acid soils	229
LEECH, F. B. and BAILEY, G. L. The effect on the health of lactating cows of treatment with galactopoietic doses of thyroxine or iodinated casein	236

PART 3 (JULY 1953)

SLIZYNSKA, HELENA and SLIZYNSKI, B. M. Cytological studies of sterile bulls with spermhead abnormality. (With One Text-figure)	253
CAMPBELL, R. C. The effect of semen age on conception rate	256
BARNETT, A. J. G. and DUNCAN, R. E. B. The determination of the volatile fatty acids formed during the fermentation of grass/water mixtures. (With Four Text-figures)	260
NICHOLSON, H. H., FIRTH, D. H., EDEN, A., ALDERMAN, G., BAKER, C. J. L. and HEIMBERG, M. The effect of ground water-level upon productivity and composition of fenland grass (II). (With One Text-figure)	265
GLOVER, J. and ROBINSON, P. A simple method for assessing the reliability of rainfall. (With One Text-figure)	275
HEAD, M. J. The effect of quality and quantity of carbohydrate and protein in the ration of the sheep on the digestibility of cellulose and other constituents of the ration, with a note on the effect of adding vitamins of the B-complex on the digestibility and retention of the nutrients of a hay ration	281

	PAGE
HUTCHINSON, J. C. D. and SYKES, A. H. Physiological acclimatization of fowls to a hot humid environment. (With Eight Text-figures)	294
HODNETT, G. E. A uniformity trial on groundnuts. (With Two Text-figures)	323
BIRCH, H. F. The relationship in acid soils between base saturation and phosphorus uptake by grasses. (With One Text-figure)	329
ROBERTSON, ALAN. A numerical description of breed structure	334
ARMSTRONG, R. H., THOMAS, BRYNMOR and HORNER, K. The availability of calcium in three herbs of grassland	337
MANN, T. and WALTON, A. The effect of under-feeding on the genital functions of a bull. (With One Text-figure)	343
COOKE, G. W. and WIDDOWSON, F. V. Placement of fertilizers for row crops	348
COOKE, G. W. and WIDDOWSON, F. V. Methods of applying fertilizers for herbage crops. (With Plate 7)	358
BARNES, T. W. The behaviour of nitrogenous materials buried in the soil. II. The solubilization of nitrogen under full aeration for long periods	365
YOUNG, G. B. Population dynamics of the Dexter breed of cattle	369
COX, C. P. and MELROSE, D. R. The calibration of a photo-electric absorptiometer for the rapid estimation of counts of spermatozoa in bull semen. (With Two Text-figures)	375

PART 4 (OCTOBER 1953)

MARDEN, WILLIAM G. R. The hormone control of ovulation in the calf. (With Plates 8-13 and One Text-figure)	381
TAYLOR, W. B. and ARMSTRONG, P. J. The efficiency of some experimental designs used in dairy husbandry experiments	407
WALLACE, C. Observations on mammary development in calves and lambs. (With Three Text-figures)	413
BURNS, MARCA. Observations on the follicle population of Blackface sheep. (With Plates 14 and 15 and Two Text-figures)	422
PHILLIPS, R. The fat stock of Anglesey and Caernarvon. (With Nine Text-figures and Five Maps)	432
DYKE, G. V. and AVIS, P. R. D. A survey of maincrop potatoes. I. Estimates of yield, 1948-50. (With One Text-figure)	450
COOP, I. E. Wool growth as affected by nutrition and by climatic factors. (With Seven Text-figures)	456
CHAMBERS, W. E. Nutrient composition of the produce of the Broadbalk continuous wheat experiment. I. Changes over seventy years. (With One Text-figure)	473
CHAMBERS, W. E. Nutrient composition of the produce of the Broadbalk continuous wheat experiment. II. Changes occurring during one season's growth. (With One Text-figure)	479

The Principles of FIELD DRAINAGE

THE MANAGER
CAMBRIDGE UNIVERSITY PRESS
BENTLEY HOUSE
200 EUSTON ROAD
LONDON, N.W. 1

The Journal of Agricultural Science is issued in quarterly parts of about 120 pages with plates and figures, four parts constituting a volume.

Volumes XVI-XX (1926-1930) are out of print. Quotations can be given for other back volumes and parts.

Quotations can also be given for buckram binding cases. (Suspended.)

Papers for publication should be typewritten or written in a very legible hand, and may be sent to DR J. HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text are submitted the author may be asked to bear the cost of such Plates.

Bibliography should be given under the heading of "References" in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and pages of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books should be in italics.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 20s. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$10.50 per volume; single numbers \$3.50. Enquiries should be addressed to the Cambridge University Press American Branch, 32 East 57th Street, New York, 22.
