International Psychogeriatrics

CONTENTS

Guest Editorial 1361 Changing images, changing visions, changing practices
Cathy Greenblat (France)

Reviews 1364 The clinical significance of cognition-focused interventions for cognitively impaired older adults: a systematic review of randomized controlled trials
Alexander F. Kurz, Stefan Leucht (Germany) and Nicola T. Lautenschlager (Australia)

1376 Using cognitive decline in novel trial designs for primary prevention and early disease-modifying therapy trials of Alzheimer’s disease
David Darby, Amy Brodtmann, Michael Woodward, Marc Budge and Paul Maruff (Australia)

Original Research Articles

1386 Increased serum levels of dehydroepiandrosterone (DHEA) and interleukin-6 (IL-6) in women with mild to moderate Alzheimer’s disease
Sigbritt Rasmuson, Birgitta Näsman and Tommy Olsson (Sweden)

1393 Caregivers’ perspectives on the pre-diagnostic period in early onset dementia: a long and winding road
Deliane van Vliet, Marjolein E. de Vugt, Christian Bakker, Raymond T. C. M. Koopmans, Yolande A. L. Pijnenburg, Myrra J. F. J. Vernooij-Dassen and Frans R. J. Verhey (The Netherlands)

1405 Impact of social network on cognitive performance and age-related cognitive decline across a 20-year follow-up
A. Dregan and D. Armstrong (UK)

1413 Cross-country variation in sleep disturbance among working and older age groups: an analysis based on the European Social Survey
A. Dregan and D. Armstrong (UK)

1421 Stakeholders’ perspective on issues and challenges associated with care and treatment of aging-related cognitive impairment disorders in Singapore
Monika Setia, Amina M. Islam, James P. Thompson (Singapore) and David B. Matchar (Singapore/USA)

1433 The effects of exposure to scenarios about dementia on stigma and attitudes toward dementia care in a Chinese community
Sheung-Tak Cheng, Belinda A. C. Law, Alexander M. T. Lau, Alice Y. Y. Pang, Winnie K. T. Tam and Wai-man Chan (Hong Kong)

1442 Reasons why family members become carers and the outcome for the person with dementia: results from the CARD study
Sara E. Errin, Susan J. E. O’Callaghan, John O’Callaghan and Martin Gray (Australia)

1451 Attitudes towards Alzheimer’s disease as a risk factor for dementia burden
L. Zawadzki, K. Mondon, N. Peru, C. Hommet, T. Constans, Ph. Gaillard and V. Camus (France)

1462 PEAR model and sleep outcomes in dementia caregivers: influence of activity restriction and pleasant events on sleep disturbances
Andrew Camden, Gill Livingston and Claudia Cooper (UK)

1470 Relationships between appraisal of caregiver communication strategies and burden among spouses and adult children
Marie-France Dubois, Gina Bravo, Janice Graham, Sheila Wildeman, Carole Cohen, Karen Painter and Suzanne Bellemare (Canada)

1479 Comfort with proxy consent to research involving decisionally impaired older adults: do type of proxy and risk-benefit profile matter?
Sheung-Tak Cheng, Sara E. Errin, Susan J. E. O’Callaghan, John O’Callaghan and Martin Gray (Australia)

1489 Chronic diseases among older people and co-resident psychological morbidity: a 10/66 Dementia Research Group population-based survey
Mina Honyashiki (Japan), Timothy Kruger, John Harrop, John Harrop and Janet Sheehan (Australia)

1498 Patterns of psychotropic medication use in nursing homes: surveys in Sydney, allowing comparisons over time and between countries
John Snowdon, John G. Haines and Terry L. Haines (Australia)

Book Reviews 1528

1526

Letter 1526

Prevalence and influence of psychiatric comorbidity on rehabilitation outcome for older hospital inpatients
John Snowdon, John G. Haines and Terry L. Haines (Australia)

1520 Escitalopram versus risperidone for the treatment of behavioral and psychotic symptoms associated with Alzheimer’s disease: a randomized double-blind pilot study
A. M. Islam, L. Zawadzki, K. Mondon, N. Peru, C. Hommet, T. Constans, Ph. Gaillard and V. Camus (France)

1526 Patterns of psychotropic medication use in nursing homes: surveys in Sydney, allowing comparisons over time and between countries
John Snowdon, John G. Haines and Terry L. Haines (Australia)

**SUBSCRIPTIONS**

International Psychogeriatrics (ISSN 1041-6102) is published ten times a year (February, March, April, May, June, August, September, October, November and December) (12). The annual subscription price (excluding VAT), including delivery by air where appropriate, plus electronic access for subscribers of Volume 21 (2007) in the USA (£205 US$305) for Canada and Mexico (A$275 US$405 in the USA, Canada and Mexico) for individuals ordering direct from the publisher and selecting that the journal is for their personal use. Single parts are £75 (US$110) in the USA, Canada and Mexico plus postage. The electronic-only self price and print only price available to institutional subscribers is £466 (US$676) and INR1,180 (INR150) in the USA, Canada and Mexico (2007), respectively. Orders, which must be accompanied by payment, may be sent to a bookstore, subscription agent or to the publisher Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK or in the USA, Canada and Mexico Cambridge University Press, Journals Fulfillment Department, 32 River Birch Drive, West Nyack, New York 10994-0001, USA. This journal is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought. Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorial and book reviews, which are commissioned, contributions to International Psychogeriatrics are peer-reviewed and submitted by authors. Papers are reviewed by at least two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication. The journal’s Science Citation Index impact factor is 2.478 (2010). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. International Psychogeriatrics uses the spelling of American English. Manuscripts written by those whose primary language is in English should be edited for clarity before language input. The journal is sponsored by the Language Assistance Panel consisting of both native English speakers and experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at the International Psychogeriatrics journal, cambridge.org/ipg. Please read these instructions carefully before submitting articles. Articles that are not prepared in accordance with these guidelines will be returned to authors.

Manuscripts should be submitted online via our manuscript submission and tracking site, http://mc.manuscriptcentral.com/ipga. Full instructions for electronic submission are available directly from this site.
