Taxonomical considerations and molecular phylogeny of the closely related genera *Bitylenchus*, *Sauertylechus* and *Tylenchorhynchus* (Nematoda: Telotylenchinae), with one new and four known species from Iran - CORRIGENDUM. *Journal of Helminthology* **95**, e62, 1–1. <https://doi.org/10.1017/S0022149X21000626>

Taxonomical considerations and molecular phylogeny of the closely related genera *Bitylenchus*, *Sauertylechus* and *Tylenchorhynchus* (Nematoda: Telotylenchinae), with one new and four known species from Iran - CORRIGENDUM

M. Hosseinvand, A. Eskandari, S. Ganjkhaneloo, R. Ghaderi, P. Castillo and J.E. Palomares-Rius

DOI: <https://doi.org/10.1017/S0022149X20000784> Published online by Cambridge University Press: 01 October 2020

The authors apologise that upon publication the accession numbers listed in fig. 12, on page 21, were incorrect.

The accurate accession numbers for the two new 18S rRNA gene sequences of *Bitylenchus parvulus* n. sp., obtained in this study are: MT226922 and MT226923.
