Education and Middle-Class Society
in Imperial Austria, 1848–1918

by *Gary B. Cohen*

"Gary Cohen's *Education and Middle-Class Society in Imperial Austria* will most certainly become the standard work on the history of secondary and higher education in East Central Europe in the late imperial period, and it will also prove to be a historiographical gold mine for other historians interested in the history of the Central European middle classes.

All in all, a thoughtfully argued and deeply and carefully researched book."
