

BIBLIOGRAPHY

Bibliography of urban history 2022

Andrew McTominey

The present bibliography is a continuation of and a complement to those published in the *Urban History Yearbook* 1974–91 and *Urban History* from 1992. The arrangement and format closely follows that of previous years. The list of abbreviations identifies only those periodicals from which articles cited this year have been taken, though many other journals are also checked.

I General

Research methods, aids and materials
Maps and plans
Archives – descriptions and examples
Urban history, definitions and aims
Historiography
Empirical studies of urbanization
History, growth and fortunes of individual towns

II Population

General features of urban population
Natality and mortality
Disease
Medicine
Urban public health
Migration to, from and between towns

III Physical structure

Research methods, aids and materials
Physical and structural characteristics of towns
Architecture
Housing
Space and place
Heritage and the historic environment

IV Social structure

Research methods, aids and materials
Urban social identity
Class structure
Social life
Religion
Recreation
Crime and policing
Social reforms and improvement
Minority groups

Race
Family life
Gender
Sexualities
Social organizations, clubs and societies

V Economic activity

Urban economic activity
Industry
Food supply
Finance, banking and services
Consumption
Working conditions
Labour organization

VI Urban networks

Urban networks
Knowledge networks
Transport

VII Politics and administration

Aspects of urban administration
Political activism

VIII Shaping the urban environment

Research methods, aids and materials
Town planning
Environment and the city
Environmental disaster
War and the urban environment
Animals and the city
Urban renewal

IX Urban culture

Urban culture
Urban culture and entertainment
Education
Emotions and the senses
Attitudes towards cities
Views of the city in literature, graphics and drama
