The *Journal of Pension Economics and Finance (JPEF)* is the only academic journal focusing on the economics and finance of pensions and retirement income. The ageing population, together with the shrinking workforce, heralds a growing pensions crisis, which has become a key public policy issue in developed countries and elsewhere. *JPEF* provides a valuable and influential forum for international debate in this area.

Think has been created to forge a direct link between contemporary philosophy and the widest possible readership. The central aim of the journal is to provide to a very wide audience – encompassing undergraduates, 'A' level students, students in further education and the general public – highly accessible and engaging writing by philosophers pre-eminent in their fields.
