

Fertility in the High-Producing Dairy Cow

*British Society of Animal Science
Occasional Publication No. 26
Volume 2*

British Society of Animal Science

(formerly British Society of Animal Production)

The British Society of Animal Science aims to provide the opportunity for those with an interest in animals and animal production to exchange views, ideas and information. It is an energetic and active society with about 1300 members from over 30 countries throughout the world. Today, as ever, the Society is the natural meeting point for all those with an interest in animal science. Its membership is drawn from research, education, advisory work, commerce and the practical livestock industry.

The Society organizes a major scientific meeting once a year and occasional specialist meetings on key issues facing animal production. If you would like to join or receive further information about the Society contact: The Secretary, BSAS, PO Box 3, Penicuik, Midlothian EH26 0RZ, UK, Tel: +44 (0)131 445 4508, Fax: +44 (0)131 535 3120, Email: BSAS@ed.sac.ac.uk, Web: www.bsas.org.uk

Animal Science

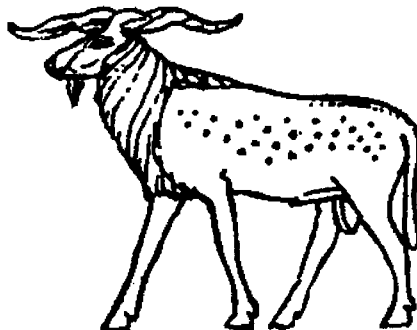

The Society's Journal is *Animal Science* (formerly *Animal Production*) which publishes fundamental and applied research and is a major scientific title of international repute. Papers reporting findings from basic and applied research relevant to all aspects of animal science can be found in it.

Animal Science is published six times a year in two volumes.

Information regarding subscriptions and sales (current and back numbers of the Journal and the Proceedings) can be obtained from: BSAS Publications Dept, PO Box 3, Penicuik, Midlothian EH26 0RZ, UK, Tel: +44 (0)131 445 4508, Fax: +44 (0)131 535 3120, Email: BSAS@ed.sac.ac.uk, Web: www.bsas.org.uk

Occasional Publications

The British Society of Animal Science's *Occasional Publication Series* contains the full papers presented at certain symposia organized by the Society. A full list of titles is given on the back cover of this Publication. Copies may be obtained from the British Society of Animal Science, PO Box No. 3, Penicuik, Midlothian EH26 0RZ.

Inside cover illustration: Ancient Egyptian corkscrew-horned sheep. Beni Hassan ca. 2000 BC (after Griffith, 1896)

Fertility in the High Producing Dairy Cow

Proceedings of an International Symposium organized by
THE BRITISH SOCIETY OF ANIMAL SCIENCE
and held at the Corrib Great Southern Hotel, Galway, Ireland, September 1999

CONTENTS

Foreword	i
Delegate List	iii

OFFERED THEATRE PAPERS

Reproductive performance during early pregnancy in cattle with contrasting early pregnancy rates	283
--	-----

W H Mcmillan, A J Peterson, S F Cox, S J Pearson & M L Donnison

Embryonic-endometrial interactions during early pregnancy in the cow	289
--	-----

R S Robinson, G E Mann, G E Lamming & D C Wathes

The relationship between genetic merit for yield and live weight, condition score, and energy balance of spring calving Holstein Friesian dairy cows on grass based systems of milk production	297
--	-----

F Buckley, P Dillon, M Rath & R F Veerkamp

High genetic merit and high-producing dairy cows in commercial Australian herds don't have substantially worse reproductive performance	305
---	-----

J M Morton

Effect of different diet supplements in the pre-and post-partum period on reproductive performance in the dairy cow	313
---	-----

N H Gardner, C K Reynolds, R H Phipps, A K Jones & D E Beever

An investigation of the key factors influencing reproductive performance in dairy herds in Northern Ireland	323
---	-----

C S Mayne, M Verner, W J McCaughey, M A McCoy, S D Lennox, D C Catney, B Kennedy, A R G Wylie & F J Gordon

POSTERS

Metabolic characteristics associated with normal or abnormal progesterone profiles during the postpartum period of dairy cows	331
---	-----

P G A Pushpakumara, N H Gardner, C K Reynolds, D E Beever & D C Wathes

The relationship between body condition at calving, uterine performance postpartum and trends in selected blood metabolites postpartum in high yielding Californian dairy cows	335
--	-----

M Titterton & L D Weaver

Factors influencing interval to first postpartum ovulation in pasture-fed dairy cows during their first lactation <i>F M Rhodes, B A Clark, S R Morgan & G A Verkerk</i>	341
Post partum suboestrus in dairy cows: comparison of treatment with prostaglandin F2 α or GnRH + prostaglandin F2 α + GnRH <i>B Grimard, G Laumonnier, C Ponsart, H Fauxpoint, E Barassin, A A Ponter, F Deletang & J P Mialot</i>	347
First service calving rates in Irish dairy herds: Trends from 1991-1996 <i>K J O'Farrell & J Crilly</i>	353
The influence of β -carotene supplementation on β -carotene concentration in the corpus luteum and on hormone concentration in the plasma of heifers <i>G Flachowsky, M Schlenzig, B Kirsche, P Lebzien</i>	359
Milk urea concentrations and pregnancy rate in dairy cows and a comparison of a dip-stick method and a laboratory method to measure milk urea concentrations <i>A A Ponter, B Grimard, C Ficheux, J-M Beduneau, F Deletang & J-P Mialot</i>	363
Effect of plasma urea concentration at the time of insemination or embryo transfer on pregnancy rate in cattle <i>V P Gath, J Fahey, S E M Snijders & D O'Callaghan</i>	367
The effects of two contrasting grassland-based milk production systems, on the performance and fertility of high genetic merit, autumn calving, dairy cows <i>C P Ferris, M A McCoy, S D Lennox, D C Catney & F J Gordon</i>	371
The effect of crude protein and fermentable carbohydrate intake on blood metabolite concentrations and fertility in beef heifers <i>D A Kenny, M P Boland, M G Diskin & J M Sreenan</i>	375
The effect of changes in feed intake around the time of insemination on systemic progesterone and embryo development and survival in cattle <i>L D Dunne, M G Diskin, M P Boland, K J O'Farrell & J M Sreenan</i>	381
Relationships between body condition score (BCS) biochemical blood parameters and pregnancy rates in Prim'Holstein cows under subtropical conditions <i>E Tillard, S Nabeneza, B Faye and P Humblot</i>	385
Respective frequencies of early and late embryonic mortality in Prim'Holstein cows under subtropical conditions <i>E Tillard, S Nabeneza, B Faye and P Humblot</i>	389
Effect of peri-parturient Monensin supplementation on endocrine and metabolic adaptation to early lactation as well as on postpartum reproduction in dairy cows calving in different body conditions <i>M Kulcsár, Gy Huszenicza, P Kóródi, P Ribiczei-Szabó, J Bartyik, L Katai, J Schmidt, Sz Janosi, S Dieleman, J A Nikolic, L Kormanek P Rudas, H Samanc & I Ivanov</i>	393

Hormone and metabolite profiles as well as the onset of ovarian cyclicity in dairy cows suffering from various forms of ketosis <i>Gy Huszenicza, M Kulcsár, S J Dieleman, P Kóródi, J Bartyik, P Rudas, P Ribiczei-Szabó, J A Nikolic, H Samanch & I Ivanov</i>	399
Plasma leptin concentration and its interrelation with some blood metabolites, metabolic hormones and the resumption of cyclic ovarian function in postpartum dairy cows supplemented with monensin or inert fat in feed <i>Gy Huszenicza, M Kulcsár, J A Nikolic, J Schmidt, P Kóródi, L Katai, S Dieleman, P Ribiczei-Szabó, P Rudas</i>	405
The effects of time of disease occurrence, milk yield, and body condition on conception rates in dairy cows <i>S H Loeffler, M J de Vries & Y H Schukken</i>	411
A comparison of two intrauterine antibiotic treatments for endometritis in dairy cows by means of survival analysis <i>S H Loeffler & A C de Zeeuw</i>	417
The effect of a copper, cobalt and selenium bolus on fertility and trace element status of dairy cattle <i>A M Mackenzie, M M Moeini & S B Telfer</i>	423
Copper responsive infertility in British cattle: the use of a blood caeruloplasmin to copper ratio in determining a requirement for copper supplementation <i>N R Kendall, D V Illingworth & S B Telfer</i>	429
Maternal influence on oocyte collection and embryo development after transvaginal puncture and <i>in vitro</i> fertilisation in dairy cows <i>S Chastant-Maillard, H Quinton, C Douar, J Marchal, C Richard, Y Heyman & J-P Renard</i>	433
Early embryo development in nuclear transfer clones derived from somatic cells of a high genetic merit dairy cow <i>W H McMillan, D N Wells, A J Peterson & M J Donnison</i>	437
Evaluation of the early conception factor (ECF™) test in cows 3-7 days post-breeding. <i>C S Adams & P W Jardon</i>	441
Protein and energy metabolism in the pre-implantation cattle embryo <i>D G Morris, P Humpherson, H J Leese & J M Sreenan</i>	443
The detection and treatment of post insemination progesterone insufficiency in dairy cows <i>G R Starbuck, A O Darwash, G E Mann & G E Lamming</i>	447
Effects of treatment with a gonadotrophin-releasing hormone analogue on follicle development in dairy cows fed one of two different diets <i>E C L Bleach, C L Moore, H J Zeale & P G Knight</i>	451

A meta-analysis of studies of the effect of GnRH 11-14 days after insemination on pregnancy rates in cattle <i>A R Peters, T Martinez & A J C Cook</i>	457
Field assessment of GnRH-PGF ₂ α oestrous synchronisation in confined Holstein cows <i>J F Cox, F Saravia, O Torrealba, A Zavala, A Lobos,</i>	461
Comparison of reproductive responses after PGF ₂ α and GnRH-PGF ₂ α oestrous synchronisation schemes in Holstein cows <i>J F Cox, F Saravia, O Torrealba, A Zavala, A Lobos, S Recabarren</i>	467
An investigation into the relationship between milk progesterone concentrations in fore-milk and composite milk samples <i>M A McCoy, S D Lennox, C S Mayne, W J McCaughey, M Verner, D C Catney, A R G Wylie, B Kennedy & F J Gordon</i>	471
The effect of oestradiol benzoate (ODB) or a synthetic gonadotrophin releasing hormone (GnRH) used at the start of a progesterone treatment on onset and synchrony of oestrus in cattle <i>E A Lane, E J Austin, M A Crowe & J F Roche</i>	475
The effects of acute nutritional restriction on LH and oestradiol concentrations, follicle dynamics and fertility in heifers <i>D R Mackey, J F Roche, J M Sreenan & M G Diskin</i>	479
Investigation of infertility problems in dairy herds <i>W J McCaughey, M McCoy, C S Mayne, M Verner, S D Lennox, D C Catney, A R G Wylie, B Kennedy & F J Gordon</i>	485
Comparisons between fertility and survival of strains of Holstein-Friesian cows, Jersey cows and their crosses in New Zealand <i>B L Harris, C W Holmes, A M Winkelman & Z Z Xu</i>	491
Reproductive function in average and high yielding dairy cows <i>V J Taylor, A J Hattan, E C L Bleach, D E Beever & D C Wathes</i>	495
Relationship between genetic merit, milk production, body condition, blood parameters and reproductive performance of dairy cows <i>S E M Snijders, P G Dillon, K J O'Farrell, M Diskin, D O'Callaghan, M Rath & M P Boland</i>	499
Comparison of growth and reproduction performances of dairy (Holstein-Friesian) and beef (Belgian Blue) replacement heifers in farms with both types of cattle <i>V de Behr, O Gerard, J L Hornick, J Dufrasne & L Istasse</i>	503
Reproduction, mastitis, and body condition scores among spring and fall calving dairy cows in pasture or confinement feeding systems <i>S P Washburn, S L White, J T Green Jr and G A Benson</i>	507
