

BULLETIN

ISSN 0004-9727

of the

AUSTRALIAN MATHEMATICAL SOCIETY

Volume 25 Number 1

February 1982

On orbits of algebraic groups and Lie groups	1
by R. W. Richardson	
Handlebody decompositions for G-manifolds	29
by M. J. Field	
On explicit estimates for linear forms in the values of a class of E-functions	37
by Xu Guangshan and Wang Lianxiang	
On converse duality for a nondifferentiable program	71
by T. R. Gulati	
On the normaliser of a group in the Cayley representation	81
by Prabir Bhattacharya	
Certain integrals for classes of p-valent meromorphic functions	85
by Vinod Kumar and S. L. Shukla	
Cardinality of discrete subsets of a topological space	99
by David B. Gauld and M. K. Vamanamurthy	
Serre classes for toposes	103
by M. Adelman and P. T. Johnstone	
On Hering's flag transitive plane of order 27	117
by M. L. Narayana Rao, K. Kuppuswamy Rao and K. Satyanarayana	
Bounds for solutions of systems of linear equations	125
by Jeffrey D. Vaaler and A. J. van der Poorten	
Topologies induced by metrics with disconnected range	133
by Kevin Broughan	
Localization of Patai's theorem on alephs	143
by Frederick Bagemihl	
Growth of functions in H^p	147
by Hwai-Chiuan Wang	

ABSTRACTS OF AUSTRALASIAN PhD THESES

Non-linear free-surface flows about blunt bodies	157
by Lawrence K. Forbes	
A quadratic programming algorithm for geophysical gravity inversion and other applications	159
by Nigel John Fisher	

The University of Queensland Press, St Lucia, Queensland, 4067, Australia

Printed in Australia by Watson Ferguson & Co.

Registered by Australia Post—Publication No. QBQ2945

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editor: Sidney A. Morris

Deputy Editor: K. R. Pearson
Honorary Editor: B. H. Neumann

Associate Editors

Robert S. Anderssen
Alan L. Andrew
B. D. Craven
Brian A. Davey
J. R. J. Groves
James M. Hill
D. A. Holton

D. C. Hunt
P. E. Kloeden
J. S. Maritz
Rodney Nilsen
Sheila Oates-Williams
A. J. van der Poorten
J. H. Rubinstein

Leon Simon
G. Szekeres
D. G. Tacon
Colin J. Thompson
H. B. Thompson
Rudolf Vyborny
R. F. C. Walters

Assistant Editors

Robert S. Anderssen

M. S. Brooks

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to
The Editor, Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics, La Trobe University,
Bundoora, Victoria 3083, Australia

but should not send the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification.

As even minor revisions are generally not permitted, authors should read carefully all the details listed on the inside back cover.

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
