

The following papers have been accepted for publication and will appear shortly:

SCHEUER, P. A. G. A statistical method for analysing observations of faint radio stars.

SIMONS, S. The absorption of very high frequency sound in dielectric solids.

GRÜNBAUM, B. A simple proof of Borsuk's conjecture in three dimensions.

BHATTACHARYA, P. B. The Hilbert function of two ideals.

BASSALI, W. A. The transverse flexure of thin elastic plates supported at several points.

BARNETT, I. A. and ABIAN, S. Some properties of skew-symmetric elements of a ring.

BAUMSLAG, GILBERT. A theorem on infinite groups.

FOX, CHARLES. Some applications of Mellin transforms to the theory of bivariate statistical distributions.

JONES, D. S. and WHITHAM, G. B. An approximate treatment of high frequency scattering.

AFRIAT, S. N. Orthogonal and oblique projectors and the characteristics of pairs of vector spaces.

BROADBENT, S. R. and HAMMERSLEY, J. M. Percolation processes. I. Crystals and mazes.

HAMMERSLEY, J. M. Percolation processes. II. The connective constant.

COLES, W. J. On a theorem of van der Corput on uniform distribution.

RINGROSE, J. R. Precompact linear operators in locally convex spaces.

LOWIG, H. F. J. On the existence of freely generated algebras.

CONTENTS OF BIOLOGICAL REVIEWS

Vol. 32, Part 2. May 1957

H. E. STREET. Excised root culture.

JAMES D. ROBERTSON. The habitat of the early vertebrates.

R. M. C. DAWSON. The animal phospholipids: their structure, metabolism and biological significance.

CONTENTS

	PAGE
CARLITZ, L. Some arithmetic properties of the Legendre polynomials	265
BIRCH, B. J. Another transference theorem of the geometry of numbers	269
NANDA, V. S. Bipartite partitions	273
McLAIN, D. H. The existence of subgroups of given order in finite groups	278
PETERSEN, G. M. The norm of iterations of regular matrices	286
EHRMAN, JOACHIM B. On the unitary irreducible representations of the universal covering group of the $3+2$ deSitter group	290
SMART, D. R. Representation of Hilbert space operators by (nJ) -matrices	304
McMINN, TREVOR J. Linear measures of some sets of the Cantor type	312
BORWEIN, D. On a scale of Abel-type summability methods	318
MAUDE, RONALD. Exceptional sets with respect to order of integral functions of two variables	323
ALTMANN, S. L. On the symmetries of spherical harmonics	343
KARP, SAMUEL N. An application of Sturm-Liouville theory to a class of two-part boundary-value problems	368
THORNE, R. C. The asymptotic solution of differential equations with a turning point and singularities	382
HEADING, J. The Stokes phenomenon and certain n th-order differential equations. I. Preliminary investigation of the equations	399
HEADING, J. The Stokes phenomenon and certain n th-order differential equations. II. The Stokes phenomenon	419
RIDLEY, E. CICELY. A numerical method of solving second-order linear differential equations with two-point boundary conditions.	442
JUNCOSA, M. L. and YOUNG, DAVID. On the Crank-Nicolson procedure for solving parabolic partial differential equations	448
BASTIN, E. W. and KILMISTER, C. W. The concept of order. III. General relativity as a technique for extrapolating over great distances	462
MOFFAT, JOHN. The foundations of a generalization of gravitation theory	473
MOFFAT, JOHN. The static spherically symmetric solutions in a unified field theory	489
STRACHAN, CHARLES. Formation of an alpha-group in the shell-model of a heavy nucleus	494
PYLE, I. C. The second-order effect of free electrons on lattice conduction	508
OLDROYD, J. G. The rheology of some two-dimensional disperse systems	514
BASSALI, W. A. Thin circular plates supported at several points along the boundary.	525
RESEARCH NOTES:	
BIRCH, B. J. A grid with no split parallelepiped	536
BARNES, E. S. On a theorem of Voronoi	537
DAVENPORT, H. Note on a theorem of Cassels	539
WATSON, G. L. Least solutions of homogeneous quadratic equations	541
ADDENDUM: MAHLER, K. On the Taylor coefficients of rational functions	544

*Printed in Great Britain at the University Press, Cambridge
(Brooke Crutchley, University Printer)*
