Systematic Reviews

Food groups and the likelihood of non-alcoholic fatty liver disease: a systematic review and meta-analysis
Kaiyin He, Yuting Li, Xin Guo, Lu Zhong and Shaohui Tang

Nutritional and Metabolic Studies

Most meat products have high digestible, indispensable amino acid scores that are greater than 100, but processing may increase or reduce protein quality.
Harman W. Bailey, John K. Mathias, Eric P. Berg and Helen H. Stein

Organic selenium supplements partially alleviated diquat-induced oxidative insults and hepatic metabolic stress in nursery pigs.
Nicole Chen, Shannon Lin, Xia Xiang, Weiqiang Xie, Jianzheng Wu, David M. Brown, Vanitha Shankaran and Peng Hu

Applications of N-carbamylglutamate in Rex rabbits to reduce body fat deposition and to improve carcass utilization
Yueming Wu, Guangnan Yu, Shengqian Shen, Xinlong Long, Weiqiang Lin, Baiting Zhuo and Xingqiang Deng

Developmental Biology

Effect of dietary L-carnitine supplementation to sows during gestation and/or lactation on sow productivity, muscle maturation and lifetime growth in progeny from large litters
Hazel B. Rooney, K. O’Driscoll, P. Silacci, G. Bee, J. V. O’Doherty and P. G. Lawlor

Microbiology

Modulation of the intestinal microbiota and the metabolites produced by the administration of ice cream and a dietary supplement containing the same probiotics
Vivian Cristina da Cruz Rodrigues, Ana Luiza Rocha Faria Duque, Luciana de Carvalho Fino, Fernando Moreira Simabuco, Adilson Sartoratto, Lucélia Cabral, Melline Fontes Noronha, Katia Sivieri and Adriane Elisabete Costa Antunes

Human and Clinical Nutrition

Homocysteine, the methylenetetrahydrofolate reductase 677C>T polymorphism and hypertension: effect modifiers by lifestyle factors and population subgroups
Gemma Ornosa-Martín, Joan D. Fernandez-Ballart, Santiago Ceruelo, Lídia Ríos, Per M. Ueland, Klaus Meyer and Michelle M. Murphy

Dietary Surveys and Nutritional Epidemiology

Yogurt consumption and colorectal polyps

Honey consumption is inversely associated with prediabetes among Chinese adults: results from the Tianjin Chronic Low-Grade Systemic Inflammation and Health (TCLSIH) Cohort Study
Shuyan Zhang, Shanbin Ren, Yaping Gu, Erqian Li, Gui Yang, Guo Ping, Guizhong Lü, Xueqin Mo, Qirun Wang, Yang Jun, Yungang Chen, Xiaoying He, Yanyan Liu, Hong Liu, Xiaolong Sun, King Wang, Ming Zhou, Quan Jia, Hong Tang, Shengkun Xue and Kaijun Niu

Risk of overestimating treatment effects and generalisability of computer-based tailored dietary counselling
Yukiko Okami, Akihiro Shiroshita and Masahiro Banno

British Journal of Nutrition

Aims and Scope

The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.
