POLICING CONTINGENCIES

FREE TO DIE FOR THEIR COUNTRY

The Story of the Japanese American Draft Resisters in World War II

Eric L. Muller

"In the spring of 1942, the federal government forced West Coast Japanese Americans into detainment camps on suspicion of disloyalty. Two years later, after stripping them of their livelihoods, liberty, and dignity, the government began drafting them into the same military that had been guarding them as subversives. Several hundred men refused and practiced a different sort of American patriotism—the patriotism of protest. Muller . . . looks behind the story of the internment camps to find a tale less well known and even more troubling, illuminating a dark corner of American history."—*Yale Law Report*

The Communitarian Constitution

Beau Breslin

"Breslin's book will stir up some dust and provoke academic controversy in a highly productive way. His strongly stated and well-argued thesis—that communitarianism cannot sustain a constitutional vision—will surely garner great attention among political theorists and students of public law. Everyone who reads it will come away with a new understanding of the power, complexity, and problems of communitarian ideas."

—Austin D. Sarat, Amherst College

"Breslin develops a provocative critique of communitarian political theory. His central claim is that communitarian thought is anti-constitutionalist because it elevates the will of the community over objective, clearly discernible constitutional limitations. *The Communitarian Constitution* succeeds admirably in sharpening debates over fundamental matters of constitutional design."

THE CLOAKING OF POWER

Montesquieu, Blackstone, and the Rise of Judicial Activism

Paul O. Carrese

"It is rare and praiseworthy when a book shows something new about a great author and about the ideas we live by. Original for its energy, pertinence, and intelligence, Paul Carrese's *The Cloaking of Power* will be an important book on Montesquieu and on Montesquieu's Anglo-American legacy. Everyone sees the importance of the judiciary for Montesquieu, but no one has put the point in focus and developed it as has Carrese. This will be an interpretation with which everyone will now have to contend."

SKEPTICISM AND FREEDOM

A Modern Case for Classical Liberalism

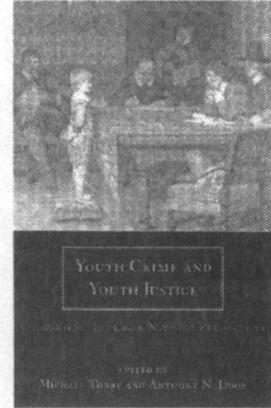

Richard A. Epstein

"Epstein offers a detailed intellectual defense of a liberal social order with a government that is limited but—just as important—strong and effective in performing the tasks that are proper to it. The book is a complex and challenging attempt to respond to the objections raised to classical liberalism in recent years by specialists in law, economics, and philosophy."
