# Assessing functional status using the IADL-extended scale: results from the HELIAD study – ERRATUM

---

F. Kalligerou, R. Fieo, G. P. Paraskevas, I. Zalonis, M. H. Kosmidis, M. Yannakoulia, E. Ntanasi, E. Dardiotis, G. Hadjigeorgiou, P. Sakka, and N. Scarmeas

DOI: <https://doi.org/10.1017/S1041610219001091>, Published by Cambridge University Press, 10 September 2019

**Key words:** IADL-extended, cognition, function; erratum

The above article (Kalligerou *et al.*, 2019) published with an incorrect reference.

The correct reference is as follows:

**The Staff of the Benjamin Rose Hospital.** (1959). MULTIDISCIPLINARY studies of illness in aged persons. II. A new classification of functional status in activities of daily living. *Journal of Chronic Disease*, 9, 55–62.

Furthermore, the in-text citation should read (The Staff of the Benjamin Rose Hospital, 1959).

The publisher apologizes for the error.
