

ADVANCES IN APPLIED PROBABILITY
VOLUME 43 (2011): INDEX
General Applied Probability

| | PAGES |
|---|-----------|
| AKGUN, O. T., RICHTER, R. AND WOLFF, R. Multiple-server system with flexible arrivals | 985–1004 |
| AL HANBALI, A., MANDJES, M., NAZARATHY, Y. AND WHITT, W. The asymptotic variance of departures in critically loaded queues | 243–263 |
| BACCELLI, F., BŁASZCZYSZYN, B. AND HAJI-MIRSADEGHI, M.-O. Optimal paths on the space–time SINR random graph. | 131–150 |
| BALL, F. G., KNOCK, E. S. AND O’NEILL, P. D. Threshold behaviour of emerging epidemics featuring contact tracing. | 1048–1065 |
| BANSAYE, V. <i>see</i> DOMBRY, C. | |
| BARTROFF, J. AND SAMUEL-CAHN, E. The fighter problem: optimal allocation of a discrete commodity | 121–130 |
| BEHME, A. D. Distributional properties of solutions of $dV_t = V_{t-} dU_t + dL_t$ with Lévy noise. . . . | 688–711 |
| BŁASZCZYSZYN, B. <i>see</i> BACCELLI, F. | |
| CLINE, D. B. H. Irreducibility and continuity assumptions for positive operators with application to threshold GARCH time series models. | 49–76 |
| CURIEN, N. AND JOSEPH, A. Partial match queries in two-dimensional quadtrees: a probabilistic approach. | 178–194 |
| DAI, H. Exact Monte Carlo simulation for fork-join networks. | 484–503 |
| DASSIOS, A. AND ZHAO, H. A dynamic contagion process. | 814–846 |
| DAYAR, T., SANDMANN, W., SPIELER, D. AND WOLF, V. Infinite level-dependent QBD processes and matrix-analytic solutions for stochastic chemical kinetics | 1005–1026 |
| DE HAAN, L. AND ZHOU, C. Extreme residual dependence for random vectors and processes | 217–242 |
| DEMICHEL, Y., ESTRADE, A., KRATZ, M. AND SAMORODNITSKY, G. How fast can the chord length distribution decay? | 504–523 |
| DIA, E. H. A. AND LAMBERTON, D. Connecting discrete and continuous lookback or hindsight options in exponential Lévy models. | 1136–1165 |
| DOMBRY, C., MAZZA, C. AND BANSAYE, V. Phenotypic diversity and population growth in a fluctuating environment. | 375–398 |
| ELMASRY, A. AND MAHMOUD, H. Analysis of swaps in radix selection | 524–544 |
| ESTRADE, A. <i>see</i> DEMICHEL, Y. | |
| EWALD, C.-O. AND XIAO, Y. Information: price and impact on general welfare and optimal investment. An anticipative stochastic differential game model | 97–120 |
| FALLER, A. AND RÜSCHENDORF, L. On approximative solutions of optimal stopping problems | 1086–1108 |
| FOUCART, C. Distinguished exchangeable coalescents and generalized Fleming–Viot processes with immigration. | 348–374 |
| GALLO, S. Chains with unbounded variable length memory: perfect simulation and a visible regeneration scheme | 735–759 |
| GITTINS, J. C. <i>see</i> QU, S. | |
| GOLDSTEIN, L. AND ZHANG, H. A Berry–Esseen theorem for the lightbulb process. | 875–898 |
| GOUET, R., LÓPEZ, F. J. AND SANZ, G. Asymptotic normality for the number of records from general distributions. | 422–436 |
| GRIFFIN, P. S. AND MALLER, R. A. Stability of the exit time for Lévy processes. | 712–734 |
| HAJI-MIRSADEGHI, M.-O. <i>see</i> BACCELLI, F. | |
| HOLMGREN, C. A weakly 1-stable limiting distribution for the number of random records and cuttings in split trees | 151–177 |

| | |
|--|-----------|
| HÖSSJER, O. Coalescence theory for a general class of structured populations with fast migration . . . | 1027–1047 |
| HUILLET, T. AND MARTINEZ, S. Duality and intertwining for discrete Markov kernels: relations and examples | 437–460 |
| JARA, M. AND KOMOROWSKI, T. Limit theorems for some continuous-time random walks | 782–813 |
| JOSEPH, A. <i>see</i> CURIEN, N. | |
| KNOCK, E. S. <i>see</i> BALL, F. G. | |
| KOMOROWSKI, T. <i>see</i> JARA, M. | |
| KRATZ, M. <i>see</i> DEMICHEL, Y. | |
| KVITKOVIČOVÁ, A. AND PANARETOS, V. M. Asymptotic inference for partially observed branching processes | 1166–1190 |
| LAMBERTON, D. <i>see</i> DIA, E. H. A. | |
| LARSSON, M. AND NEŠLEHOVÁ, J. Extremal behavior of Archimedean copulas | 195–216 |
| LEE, C. AND WEERASINGHE, A. Stationarity and control of a tandem fluid network with fractional Brownian motion input | 847–874 |
| LÓPEZ, F. J. <i>see</i> GOUET, R. | |
| MAHMOUD, H. <i>see</i> ELMASRY, A. | |
| MALLER, R. A. <i>see</i> GRIFFIN, P. S. | |
