The British Journal of Nutrition is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human or animal nutrition, plant or microorganism nutrition, and base science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Nutrition Society recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialties involved in research and clinical practice. The journal also publishes supplements on topics of particular interest.

The British Journal of Nutrition is published twice monthly by Cambridge University Press on behalf of The Nutrition Society.

The British Journal of Nutrition is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

G C Budgen, University of East Anglia, UK

Deputy Editors

J B Anderson, University of North Carolina, USA

Aims and Scope

The British Journal of Nutrition is a journal of the Nutrition Society. The Society aims to promote international collaboration in nutritional science and to promote the health and wellbeing of humans and animals through the study of nutrition. The journal publishes high quality material on advances in the nutritional sciences.

Molecular Nutrition
Phytic acid improves intestinal mucosal barrier damage and reduces serum levels of proinflammatory cytokines in a 1,2-dimethylhydrazine-induced rat colorectal cancer model
C. Liu, C. Chen, F. Yang, X. Li, L. Cheng & Y. Song
321-330

Stimulation and Metabolic Studies
Energy utilization of turkey chickens in response to guar gum/oleanolic acid supplementation in diets with various energy contents
S. A. S. Fosoul, A. Azarfar, A. Gheisari & H. Khosravinia
331-340

Timeline of changes in adipose tissue composition, at the level of energy expenditure, with progressive weight loss
341-349

Mucosal and Clinical Nutrition
Steal from fat: mechanisms screening tool in a hospital setting: effects on knowledge, attitudes and perceived practices of healthcare staff
E. Olivier, R. E. T. Helm & G. O. Lehnen
150-157

Nutritional status and iatrogenic risk factors of exclusively breast-fed infants at high altitude for Ostia, Bolivia
N. Urteaga, J. L. S. Miguel, A. M. Aguilar, M. Muñoz & H. Slater
158-163

Immunological and clinical characteristics of adults with non-alcoholic fatty liver disease, after an intervention based on the Mediterranean Diet: a randomized controlled clinical trial
164-175

Effectiveness of a home fortification programme with multiple micronutrients in infant and young child development: a pilot randomized trial in rural Bihar, India
176-187

Dietary Surveys and Nutritional Epidemiology
Colorectal cancer survivors’ adherence to lifestyle recommendations and cross-sectional associations with health-related quality of life
188-197

Behaviour, Appetite and Obesity
Adherence to the French Eating Model is inversely associated with overweight and obesity: results from a large sample of French adults
P. Ducrot, C. Méjean, F. Bellisle, B. Allès, S. Hercberg & S. Péneau
208-216

Letter to the Editor
Decaffeinated green coffee bean extract and the components of the metabolic syndrome
Y. Yano
240-240
