A Peer-Reviewed Practical Guide to Patient Registry
Development and Operations in Canada
Acknowledgements

This guideline document was developed as a part of the National Population Health Study of Neurological Conditions. We wish to acknowledge the membership of Neurological Health Charities Canada and the Public Health Agency of Canada for their contribution to the success of this initiative.

Funding for the study was provided by the Public Health Agency of Canada. The opinions expressed in this publication are those of the authors/researchers, and do not necessarily reflect the official views of the Public Health Agency of Canada.

The development of this guideline document would not have been possible without the assistance and expertise of the following individuals who participated in the guideline development process.
