

EDITORIAL NOTE

In future, indexes to individual volumes of *J.I.A.* will not be published, although the last part of each volume will continue to have a complete list of that volume's contents. A consolidated index to Volumes 86 to 100 will be published in 1977.

Regular readers will notice two innovations in this Part. Discussions at Sessional Meetings are reported in direct speech, which gives them more immediacy and 'flavour', and a new item *Review Notes* (to which contributions are invited) is designed for very short book reviews which cannot be suitably covered by *Articles, Papers and Publications of Actuarial Interest*.
