1 Pressure-driven flow in a two-dimensional channel with porous walls
Q. Zhang & A. Prosperetti

23 An experimental study of an axisymmetric turbulent pulsed air jet
I. Choutapalli, A. Krothapalli & J. H. Arakeri

65 Gravity currents impinging on bottom-mounted square cylinders: flow fields and associated forces
E. Gonzalez-Juez, E. Melburg & G. Constantinescu

103 Time-dependent water-wave scattering by arrays of cylinders and the approximation of near trapping
M. H. Meylan & R. Eatock Taylor

127 Swimming due to transverse shape deformations
E. Kanso

149 Numerical study of vertical dispersion by stratified turbulence
G. Brethouwer & E. Lindborg

165 Dynamics of ultra-thin two-layer films under the action of inclined temperature gradients
A. A. Nepomnyashchy & I. B. Simanovskii

199 Momentum and scalar transport at the turbulent/non-turbulent interface of a jet
J. Westerweel, C. Fukushima, J. M. Pedersen & J. C. R. Hunt

231 Anomalous pressure drop behaviour of mixed kinematics flows of viscoelastic polymer solutions: a multiscale simulation approach
A. P. Koppol, R. Sureshkumar, A. Abedijaberi & B. Khomami

255 AC electrohydrodynamic instabilities in thin liquid films
S. A. Roberts & S. Kumar

281 Large-eddy simulation and wall modelling of turbulent channel flow
D. Chung & D. I. Pullin

311 Low-dimensional models and performance scaling of a highly deformable fish pectoral fin
M. Baskaran, R. Mittal, H. Dong, G. N. Lauder & P. Madden

343 Stability of micropolar fluid flow between concentric rotating cylinders
H. C. Weng, C.-K. Chen & M.-H. Chang

363 Exact solutions for Stokes flow in and around a sphere and between concentric spheres
P. N. Shankar

375 A reformulation and applications of interfacial fluids with a free surface
T. S. Hunt & M. J. Alderwitz

387 Mid-gap invasion in two-layer slot coating
J. Nam & M. S. Carvalho

419 Particulate gravity currents along V-shaped valleys
J. J. Monaghan, C. Mérieux, H. E. Huppert & J. Mansour

441 Corrigendum

444 INDEX TO VOLUME 631
SUBSCRIPTIONS

The Journal of Fluid Mechanics (ISSN 0022-1120) is published semimonthly in 24 volumes each year by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK/Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013–2473, USA. The subscription price (excluding VAT but including postage) for volumes 618–641, 2009, is £2225 or $4400 (online and print) and £1890 or $3750 (online only) for institutions; £655 or $1275 (online and print) and £630 or $1160 (online only) for individuals. The print-only price available to institutional subscribers is £2090 (US $3950 in USA, Canada and Mexico). Single volumes cost £95 (US $180 in the USA, Canada and Mexico) plus postage. Orders, which must be accompanied by payment, should be sent to any bookseller or subscription agent, or direct to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU.

Subscriptions in the USA, Canada and Mexico should be sent to Cambridge University Press, Journals Fulfillment Department, 100 Brook Hill Drive, West Nyack, NY 10994-2133.

EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number.

Japanese prices for institutions are available from Kinokuniya Company Ltd, PO Box 55, Chitose, Tokyo 156, Japan. Prices include delivery by air. Copies of the Journal for subscribers in the USA, Canada and Mexico are sent by air to New York.

Periodicals postage is paid at New York, NY, and at additional mailing offices. POSTMASTER: send address changes in USA, Canada and Mexico to Journal of Fluid Mechanics, Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133. Claims for missing issues can only be considered if made immediately upon receipt of the subsequent issue. Copies of back numbers are available from Cambridge University Press.

COPYING

The Journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA which are also registered with CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to CCC of the per-copy fee of $16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022-1120/2009/$16.00. ISI Tear Sheet Service, 3501 Market Street, Philadelphia, PA 19104, USA is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

For all other use of material from the Journal permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Information on Journal of Fluid Mechanics is available on http://www.jfm.damtp.cam.ac.uk/ and it is included in the Cambridge Journals Online service which can be found at journals.cambridge.org/. For further information on other Press titles access cambridge.org/.

Readers should note that where reference is made to a Web site for additional material relating to an article published in Journal of Fluid Mechanics this material has not been refereed and the Editors and Cambridge University Press have no responsibility for its content.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the World’s forests. Please see www.fsc.org for information.

Printed by the University Press, Cambridge, UK.

The picture on the cover is based on figure 1(c) of ‘Numerical study of vertical dispersion by stratified turbulence’, by G. Brethouwer & E. Lindborg.
SUMMARY OF INSTRUCTIONS FOR AUTHORS

Full instructions are available on the JFM web page at http://www.jfm.damtp.cam.ac.uk

Submission

Authors wishing to have papers published in the Journal should submit them via the online submission and refereeing system, Manuscript Central, at http://mc.manuscriptcentral.com/cup/jfm. Papers may be submitted to any editor or associate editor but fast track papers (10 printed pages or fewer) must be submitted to Professors Davidson, Linden, Lohse or Wettlaufer who should be consulted in advance. Submission of a paper implies a declaration by the author that the work is not being considered for publication elsewhere and that it has not already been considered by a different editor of the Journal. Conference Reports must be submitted within three months of the meeting.

Preparation of papers

Authors are encouraged to write their papers clearly, concisely and attractively, so that their work will be readily understood. A brief summary of editorial requirements for notation, English and presentation is available on the JFM web page (address above). Authors are urged to use the JFM latex style macros. The [referee] option should be used for initial submission. The style file, together with a guide to its use, sample pages and details of editorial style and notation, is available via anonymous ftp from the Cambridge University Press at ftp.cup.cam.ac.uk in the directory /pub/texarchive/journals/latex/jfm-cls or /pub/texarchive/journals/latex/jfm-sty; or from the JFM Editorial Office. These files will be updated periodically; please make sure that you have the latest version. While use of the JFM latex style file is preferred, ordinary latex or plain tex files can also be accepted. Other software, such as Word, will be converted to latex by the Press or retyped. Manuscripts not prepared using the JFM latex style file should be typed in double spacing, with references listed at the end in alphabetical order of authors and with a separate list of figure captions.

Extensive detailed mathematical relations, tables or figures likely to be useful only to a few specialists will not be printed, but will be available as an electronic supplement to the online version or from the JFM Editorial Office.

Movies

Refereed movies that are integral to a paper can be linked to the online version.

Accepted papers

Once a paper is accepted, final production files (e.g. the LaTeX source) must be uploaded to the Manuscript Central site and any material not available electronically should be sent to the JFM Editorial Office, labelled with the paper’s ID number. Full details are given on the JFM web page. Do not email files to the JFM Editorial Office unless requested to do so.

Charges

There is no charge for publication, but the cost of any colour figures must be borne by authors. Authors will receive a PDF file of their published article via email. Printed offprints can be purchased if ordered when the proofs are returned.

Address questions or comments to Amanda Johns at the Journals Department, Cambridge University Press, Shaftesbury Road, Cambridge CB2 8RU, UK; tel: 44 (0)1223 347922; fax: 44 (0)1223 325802; e-mail: jfm@damtp.cam.ac.uk.
