Journal of Developmental Origins of Health and Disease

Published in association with the International
Society for Developmental Origins of Health and
Disease (DOHAD)

Editor-in-Chief

Michael G. Ross, *Los Angeles Biomedical Research Institute at Harbor-
UCLA Medical Center, USA*

A multi-disciplinary journal linking basic science to applied science; focusing on how the environment during early animal and human development, and interactions between environmental and genetic factors, influence health and risk of disease in later life. The journal publishes original research articles, short communications, reviews, and regular themed issues, with guest editors.

The classic textbook on cardiac anatomy

First prize in the
**2006 British Medical
Association Book awards**

Surgical Anatomy of the Heart Third Edition

**Benson R. Wilcox
Andrew C. Cook
Robert H. Anderson**

Presenting the classic textbook on cardiac anatomy, invaluable to surgeons, cardiologists, anaesthetists, and surgical pathologists.

Topics covered include the normal surgical anatomy of the cardiac chambers, heart valves, and the system for circulation and conduction within the heart. The detailed text provides the essential anatomical knowledge required to assess and interpret the malformations, lesions, abnormalities, and positional anomalies illustrated.

Full colour surgical and pathological photographs accompany almost all of the anatomical descriptions, and detailed colour drawings help to explain concepts and simplify complex descriptions.

'This well written text is accompanied by beautifully clear colour photographs. ... beautiful illustrations and excellent writing making a book that can be strongly recommended to anybody seriously interested in the practice of cardiac surgery.'

When you can detect subtle variations,
you get **a better sense**
of where your patient is headed.

THE SENSING SYSTEMS OF COVIDIEN

INVOS™ Cerebral/Somatic Oximetry | **Nellcor™** pulse oximetry with OxiMax™ Technology | **BIS™** Brain Monitoring | **LiDCO™** Hemodynamic Monitoring

All monitors connect to patients. But the Sensing Systems of Covidien also connect patients to you. With revealing, real-time data that speaks to both your mind and your intuition. It's the timely intelligence you need to respond decisively to every unique situation. And the Sensing Systems of Covidien also keep you continuously aware of each patient's ongoing status, alerting you only when it's imperative.
