

## **CS01-03 - MENTAL DISORDERS AND CANCER**

C.Lauber

Mental Health, University of Liverpool, Liverpool, UK

The relationship between mental disorders and cancer is complex. This lecture has three aims:

1. It will show epidemiological data on the prevalence and incidence of different types of cancer in people with mental illness;
2. It will highlight clinical aspects in people with cancer; and
3. It will discuss methodological issues when researching the relationship between mental disorders and cancer.
