EXTENDED MANUSCRIPTS
All manuscripts should be uploaded to the Manuscript Central (mc.manuscriptcentral.com/jagricsci) website. Help is available on the website.

SUBMISSIONS
The Journal has moved to electronic submission. Manuscripts should be uploaded to http://mc.manuscriptcentral.com/jagricsci. Double-blind refereeing has also been adopted, therefore the authors’ names, addresses and emails should be removed from the main document and uploaded as a title page in a separate file, tagged ‘Not for Review’. Help is available on the website.

SUBSCRIPTIONS
The Journal of Agricultural Science (ISSN 0021-8596) is published ten times a year in January, March, April, May, July, August, September, October, November and December. Ten parts form a volume. The subscription price (excluding VAT of Volume 153 (2017)) which includes delivery by air where appropriate, plus electronic access to institutional subscribers (excluding VAT of Volume 153 (2017)) which includes delivery by air where appropriate, plus electronic access to institutional subscribers is £1577 net (US $2626) in the USA, Canada and Mexico. Single parts are £181 net (US $302) in the USA, Canada and Mexico. The electronic only price available to institutional subscribers is £1022 (US $1786) in the USA, Canada and Mexico. Back issues are also available.

Orders, which must be accompanied by payment, may be sent to Booksellers, subscription agents or direct to the publisher: Cambridge University Press, Journals Fulfilment Department, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number. Japanese prices for institutions are available from Kinokuniya Company Ltd, PO Box 55, Chitose, 086-8502, Japan.

POSTMASTER: send address changes in the USA, Canada and Mexico to: The Journal of Agricultural Science, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Claims for missing issues should be made immediately on receipt of the subsequent issue.

CLIMATE CHANGE AND AGRICULTURE RESEARCH PAPERS

- World climate suitability projections to 2050 and 2100 for growing oil palm
  R. R. M. Paterson, L. Kumar, F. Shabani and N. Lima
  889

- Adapting to climate change for food security in the Rift Valley dry lands of Ethiopia: supplemental irrigation, plant density and sowing date
  F. J. Forrester, D. J. Reid, G. J. Langangi, M. M. I. Jangungi and K. G. Richards
  703

- An evaluation of urea patch simulation methods for nitrous oxide emission measurement
  P. J. Forrest, B. J. Deane, S. Reed and R. J. Hudson
  725

- The long-term effect of climate change on productivity of winter wheat in Denmark: a scenario analysis using three crop models
  I. Coutts, B. Sharp, S. Batty, M. J. Boulton and J. E. Olden
  733

- Response of rice production to climate change based on self-adaptation in Fujian Province
  M. Wang, C. L. Shi, Y. Liu and G. Jin
  751

CROPS AND SOILS RESEARCH PAPERS

- Stay-green characterization in Belgian forage maize
  J. Savioz and J. Prevost, J. Vandenbussche, J. Vaene, A. V. I. van Wees, A. C. van Wees and D. Delaere
  766

- Functional role of WRKY genes and drought stress
  777

- Identification and characterization of two faba bean (Vicia faba L.) WRKY transcription factors and their expression analysis during salt and drought stress
  791

- Genotypic and environmental variability of yield from seven different crops in Croatian official variety trials and comparison with on-farm trends
  M. Zupic, J. Gavan and D. Smic
  804

- Statistical strategies for multiple testing in the safety evaluation of a genetically modified crop
  C. I. Vahl and Q. Kang
  812

ANIMAL RESEARCH PAPERS

- Comparison of supplemental cobalt form on fibre digestion and cobalamin concentrations in cattle
  R. C. Waterman, W. L. Kelly, C. K. Larson and M. K. Petersen
  832

- Crude glycerine as an alternative energy feedstuff for beef cattle grazing tropical pasture
  839

- Effect of increasing concentrations of total dissolved salts in drinking water on digestion, performance and water balance in heifers
  847
