The Royal Aeronautical Society

SPECIAL OFFER OF THE CENTENARY JOURNAL

The Centenary Journal commemorates the first hundred years of the Society from 1866 to 1966. It has a foreword by His Royal Highness Prince Philip, Duke of Edinburgh, who wrote:

"The hundred years of the Royal Aeronautical Society span the whole romantic, even fantastic story of man's adventure into the air and into space. It covers all the discussions and tentative experiments, all the wild as well as the practical ones which led eventually to the first powered flight some forty years after the Society's foundation. That this did not take place in this country may be regretted but, of all the modern technologies, aviation has probably been the most international since its inception.

To mark this Centenary, the Journal tells the story of the British contribution and of the men who played and, in many cases, are still playing important parts in the world development of aeronautics and astronautics.

Obviously it would be quite impossible to get everything into this one issue but the main things are here and they make splendid reading."

During reorganisation of the basement area at Hamilton Place a limited number of copies of the Centenary Journal were discovered. As these are now collectors items they are being offered on a first come, first served basis for £25.00 each including postage and packing. Orders enclosing the correct remittance should be sent to: Centenary Journal Offer, Royal Aeronautical Society, 4 Hamilton Place, London W1V 0BQ.

Cheques etc should be made payable to the Royal Aeronautical Society.

PRIZES AWARDED FOR WRITTEN PAPERS

All papers published by the Royal Aeronautical Society in *Aerospace* and the *Aeronautical Journal* are automatically considered for one of the prizes listed below. These prizes are awarded annually and consist of a sum of money and a scroll. The awards are presented to the winners at the Annual General Meeting of the Society which is held in May each year.

THE GEORGE TAYLOR (of Australia) PRIZE for the best paper on design, construction, production and fabrication (including structures and materials).

THE SIMMS PRIZE for the best paper on electrical, electronic and other systems (including the ground environment).

THE BUSK PRIZE for the best paper on aerodynamics, including flight testing.

THE HODGSON PRIZE for the best paper on general subjects such as policy, law, operations, management, education and history.

THE AKROYD STUART PRIZE for the best paper on propulsion.

THE JOHN BRITTEN PRIZE for the best paper on light aviation.
