

ACTA GENETICAE MEDICAE ET GEMELLOLOGIAE

Volumen XVIII

N. 4 - Octobris 1969

INDEX

L. GEDDA, G. BRENCI

BIOLOGY OF THE GENE: THE ERGON/CHRONON SYSTEM

SUMMARY	329
I. INTRODUCTION	331
II. EXPERIMENTAL VERIFICATION	332
II.1. <i>Studies on Bone and Teeth Development Rates in MZ and DZ Twins</i>	332
II.2. <i>Studies on Genetic Conditioning of Lifespan in D. melanogaster</i>	337
II.3. <i>Studies on Alkaline Phosphatase in Pure and Hybrid Strains of D. melanogaster at Various Stages of Development</i>	342
II.4. <i>Studies on the Chromosome Association Index in Subcultures of Human Lymphocytes Obtained from MZ and DZ Twins of Different Ages</i>	345
II.5. <i>Studies on Nine Parameters of Development and Senescence in MZ and DZ Twins</i>	351
III. DISCUSSION AND CONCLUSIONS	356
III.1. <i>The E/C System</i>	357
III.2. <i>Biological Time</i>	362
III.3. <i>Development</i>	363
III.4. <i>Senescence</i>	364
III.5. <i>Homeostasis</i>	367
III.6. <i>Disease</i>	368
