Yusuke Nakamura and Hiromu Tanaka  
A Witt Nadel vanishing theorem for threefolds 435–475

Jørgen Vold Rennemo  
The homological projective dual of $\text{Sym}^2 P(V)$ 476–525

Nils Amend, Pierre Deligne and Gerhard Röhrle  
On the $\chi(r,1)$-problem for restrictions of complex reflection arrangements 526–532

Bertrand Lemaire and Manish Mishra  
Matching of orbital integrals (transfer) and Hecke algebra isomorphisms 533–603

Jonathan Hanselman, Jacob Rasmussen, Sarah Dean Rasmussen and Liam Watson  
$L$-spaces, taut foliations, and graph manifolds 604–612

Hans-Christian Herbig, Gerald W. Schwarz and Christopher Seaton  
Symplectic quotients have symplectic singularities 613–646

Managing Editors:
J. Heinloth, Universität Duisburg-Essen, Fakultät für Mathematik, D-45117 Essen, Germany
B. Klingler, Humboldt-Universität zu Berlin, Institut für Mathematik, Unter den Linden 6, DE-10099 Berlin, Germany
L. Taelman, Korteweg-de Vries Institute, University of Amsterdam, P.O. Box 94248, NL-1090 GE Amsterdam, The Netherlands
E. Vasserot, Université Paris Diderot, IMJ-PRG, Bâtiment Sophie Germain, 8 place Aurélie Nemours, FR-75014 Paris, France

Editorial Board:
A. A. Beilinson, University of Chicago, IL, USA; P. Biran, ETH Zürich, Switzerland; C. Breuil, Université Paris-Sud, Orsay, France; D. Gaitsgory, University of Chicago, IL, USA; J.-H. Evertz, University of Leiden, The Netherlands; G.Faltings, Max-Planck-Institut für Mathematik, Bonn, Germany; D. Gaitsgory, Harvard University, Cambridge, MA, USA; J.-M. Hwang, Korea Institute for Advanced Study, Seoul, Korea; B. Kleiner, Courant Institute of Mathematical Sciences, NY, USA; M. Kontsevich, Institut des Hautes Études Scientifiques, Bures-sur-Yvette, France; Wen-Wei Li, Chinese Academy of Sciences, Beijing, PR China; C. Manolescu, Stanford University, CA, USA; M. Mustaţă, University of Michigan, Ann Arbor, MI, USA; B. C. Ngô, University of Chicago, IL, USA; C. W. Rezk, University of Illinois, Urbana-Champaign, IL, USA; P. Sarnak, Princeton University, NJ, USA; P. Scholze, Universität Bonn, Germany; R. Siebert, Universität Hamburg, Germany; S. Vaez, KU Leuven, Belgium; C. Voisin, Université Pierre et Marie Curie, Paris, France; A. Wilkinson, University of Chicago, IL, USA; T. D. Wooley, Purdue University, IN, USA.

Aims and Scope. The aim of Compositio Mathematica is to publish first-class mathematical research papers. By tradition the journal focuses on papers in the mainstream of pure mathematics. This includes the fields of algebra, number theory, topology, algebraic and differential geometry and (geometric) analysis. Papers on other topics are welcome if they are of interest not only to specialists. All contributions are required to meet high standards of quality and originality and are carefully screened by experts in the field.

Compositio Mathematica (ISSN 0010-437X) is published monthly as one annual volume of twelve parts by the London Mathematical Society and distributed by Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK / Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: send address changes in the USA and Canada to Compositio Mathematica, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Subscriptions. The annual subscription rate for 2020 is £1235 (USA, Canada and Mexico US$1978). These prices include delivery by air and access to an online version. Single issues cost £118 (USA, Canada and Mexico US$189.50) plus postage.

Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent, or direct to Cambridge University Press at the UK address above, or in the USA, Canada or Mexico to Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: send address changes in the USA and Canada to Compositio Mathematica, Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA.

Usage and Publication of Compositio Mathematica. The journal was founded in 1934 and has been owned since 1950 by the Foundation Compositio Mathematica. The Board members of this Dutch foundation are all mathematicians; its President is Prof. G. B. M. van der Geer of the University of Amsterdam. Papers are submitted to the journal’s Dutch editorial office, currently based in the Korteweg-de Vries Institute at the University of Amsterdam. Since January 2004, the journal has been published on behalf of the Foundation by the London Mathematical Society (LMS). The LMS celebrated its 150th anniversary in 2015; it is the major British learned society for mathematics and publishes eleven other journals, five of which are in collaboration with other learned societies, and two book series. Cambridge University Press prints and distributes Compositio Mathematica under agreement with the London Mathematical Society.

For further information concerning the journal’s ownership, management and pricing policy, please contact Publications at the London Mathematical Society (compmath@lms.ac.uk).

Submission of Manuscripts. Compositio Mathematica prefers the submission of papers in LaTeX; however, papers submitted in TeX, AMSTeX, LAMSTeX and for conventional typesetting can also be accepted.

Guidelines for electronic submission are available from the Compositio Mathematica website at www.compositio.nl/compositio.html.

Upon acceptance, the supply of the final version of the paper as a LaTeX file will ensure more rapid publication.

Instructions for the Preparation of Manuscripts can be found on the Compositio Mathematica website at www.compositio.nl/compositio.html.

Rights and Permissions. Authors are asked to assign an exclusive licence to the Foundation Compositio Mathematica for the publication of their work. Enquiries regarding rights and permission to reproduce works should be addressed to Publications, London Mathematical Society, De Morgan House, 57–58 Russell Square, London WC1B 4HS, UK.

Offprints. A URL giving free access to the final published article will be provided free of charge. Offprints can be ordered on the form made available with the page proofs.

Back numbers. Orders for Volume 144 onwards should be sent to Cambridge University Press. Enquiries about previous volumes should be directed to Publications, London Mathematical Society.

This journal has been printed on FSC-certified paper and cover board. See www.fsc.org for information.

Type set by Sunrise Setting Ltd, Brixham, UK. Printed in the UK by Bell and Bain Ltd.
